SUPPLEMENTARY INFORMATION:

Title: 7 CFR 1940 Subpart G,
“Environmental Program.”

OMB Number: 0575–0094.

Expiration Date of Approval: May 31,
2013.

Type of Request: Extension of a
currently approved information
collection.

Abstract: The information collection
under OMB Number 0575–0094 enables
the Agencies to effectively administer
the policies, methods, and
responsibilities for compliance with the
NEPA and other applicable
environmental laws, executive orders,
and regulations.

The NEPA requires Federal agencies
to consider the potential environmental
impacts of proposed major Federal
actions on the quality of the human
environment during agency planning
and decision-making processes. For
Rural Development to comply, it is
necessary that they have information on
the types of environmental resources on
site or in the vicinity of an Applicant's
proposed project that could be impacted
by Rural Development Federal action.
The Applicant is the logical source for
providing this information. In fact, the
vast majority of Federal Agencies that
assist non-Federal Applicants in
sponsoring projects require their
Applicants to submit such
environmental data to allow the agency
to make an informed decision.

Both Rural Development provide
forms and/or other guidance to assist in
the collection and submission of
necessary information. The information
is usually submitted via email, U.S.
Postal Service, or hand delivery to the
appropriate Agency office.

The information is used by the
Agency official who is processing the
application for financial assistance or
request for approval. Having
environmental information on the
Applicant's proposed project and the
construction and operation activities
enables the Agency official to determine
the magnitude of any potential
environmental impacts and to take such
impacts into consideration during
planning and decision-making as
required by NEPA. The analysis of
potential environmental impacts of an
Applicant's proposed project and Rural
Development decision is a full
disclosure process, and therefore, can
involve public information meetings
and public notification.

Estimate of Burden: Public reporting
burden for this collection of information
is estimated to average 3.7 hours per
response.

Respondents: Individuals, non-
Federal agency governments, farmers,
ranchers, business owners, for-profit or
non-profit institutions, and
organizations.

Estimated Number of Respondents:
1,684.

Estimated Number of Responses per
Respondent: 1.

Estimated Number of Responses:
3,344.

Estimated Total Annual Burden on
Respondents: 12,470 hours.

Copies of this information collection
can be obtained from Jeanne Jacobs,
Regulations and Paperwork
Management Branch, at (202) 692–0035.

Comments: Comments are invited on:
(a) Whether the proposed collection of
information is necessary for the proper
performance of the functions of the
Agencies, including whether the
information will have practical utility;
(b) the accuracy of Agencies' estimate of
the burden of the proposed collection of
information including the validity of the
methodology and assumptions used; (c)
ways to enhance the quality, utility and
clarity of the information to be
collected; and (d) ways to minimize the
burden of the collection of information
on those who are to respond, including
through the use of appropriate
automated, electronic, mechanical, or
other technological collection
techniques or other forms of information
technology.
