SUPPLEMENTARY INFORMATION:**A. Purpose**

The patent coverage in FAR subpart 27.2 requires the contractor to report each notice of a claim of patent or copyright infringement that came to the contractor’s attention in connection with performing a Government contract (sections 27.202–1 and 52.227–2).

The contractor is also required to report all royalties anticipated or paid in excess of \$250 for the use of patented inventions by furnishing the name and address of licensor, date of license agreement, patent number, brief description of item or component, percentage or dollar rate of royalty per unit, unit price of contract item, and number of units (sections 27.202–5, 52.227–6, and 52.227–9).

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the Federal Acquisition Regulations (FAR), and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

B. Annual Reporting Burden

The information collection requirement in the FAR remains unchanged for the estimated number of respondents and responses received annually. There is no centralized database in the Federal Government that maintains information regarding notice or claim of patent or copyright infringement, when a response to a solicitation contains costs or charges to royalties or when a contractor submits a statement of royalties paid or required to be paid. Subject matter experts in intellectual property law were consulted to obtain additional information that could result in revised estimates for the public burden. These inquiries yielded no additional information in regards to the respondents or responses on a yearly basis. No public comments were received in prior years that have challenged the validity of the Government’s estimates.

Number of Respondents: 30.
Responses Per Respondent: 1.
Total Responses: 30.
Average Burden Hours per Response:

.5.

Total Burden Hours: 15.

Obtaining Copies of Proposals:

Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat (MVCB), 1275 First Street NE., Washington, DC 20417, telephone (202) 501–4755. Please cite OMB Control No. 9000–0096, Patents, in all correspondence.

Dated: May 16, 2013.

William Clark,

Acting Director, Federal Acquisition Policy Division, Office of Governmentwide Acquisition Policy, Office of Acquisition Policy, Office of Governmentwide Policy.

SUPPLEMENTARY INFORMATION:

A. Purpose

As implemented in Federal Acquisition Regulation (FAR) Subpart 23.10, Executive Order 13514, Federal Leadership in Environmental, Energy, and Economic Performance, signed on October 5, 2009 (74 FR 52117, October 8, 2009) and Executive Order 13423, Strengthening Federal Environmental, Energy, and Transportation Management, signed on January 24, 2007 (72 FR 3919, January 26, 2007), mandates compliance with right-to-know laws and pollution prevention requirements; implementation of an Environmental Management System (EMSs); and completion of Facility Compliance Audits (FCAs).

This information collection will be accomplished by means of FAR clause 52.223-5. This clause requires that

Federal facilities comply with the planning and reporting requirements of the Pollution Prevention Act (PPA) of 1990 (42 U.S.C. 13101-13109) and the Emergency Planning and Community Right-to-Know Act (EPCRA) of 1986 (42 U.S.C. 11001-11050). Additionally, this clause requires contractors to provide information necessary so that agencies can implement EMSs and complete FCAs at certain Federal facilities.

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the Federal Acquisition Regulations (FAR), and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

B. Annual Reporting Burden

The estimated annual reporting burden is slightly decreased since it was originally published in the **Federal Register** at 74 FR 48745, on September 24, 2009. The adjustment is made based on current data and consultation with Federal Government subject matter experts familiar with the requirements under this information collection.

Number of Respondents: 5,401.

Responses per Respondent: 1.

Total Annual Responses: 5,401.

Hours per Response: 3.7493.

Estimated Total Burden Hours: 20,250.

Obtaining Copies of Proposals:

Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat (MVCB), 1800 F Street NW., 2nd Floor, Washington, DC 20405-0001, telephone (202) 501-4755.
