

SUMMARY: Global Pure Energy, LLC (Global Pure Energy) has applied for authority to transmit electric energy from the United States to Mexico pursuant to section 202(e) of the Federal Power Act (FPA).

DATES: Comments, protests, or motions to intervene must be submitted on or before February 13, 2014.

ADDRESSES: Comments, protests, or motions to intervene should be addressed to: Michael Rodrigue, Office of Electricity Delivery and Energy Reliability, Mail Code: OE-20, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585-0350. Because of delays in handling conventional mail, it is recommended that documents be transmitted by overnight mail, by electronic mail to Michael.Rodrigue@hq.doe.gov, or by facsimile to 202-586-8008.

FOR FURTHER INFORMATION CONTACT: Michael Rodrigue (Program Office) at 202-586-2942, or by email at Michael.Rodrigue@hq.doe.gov.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On December 23, 2013, DOE received an application from Global Pure Energy for authority to transmit electric energy from the United States to Mexico for five years using existing international transmission facilities. Global Pure Energy states that it does not own, operate, or control any electric transmission facilities, nor is it affiliated with other transmission or distribution facilities within the United States.

Global Pure Energy states that the energy it proposes to export to Mexico will be surplus energy purchased from wholesale markets within Texas. Global Pure Energy further states that any such export transactions will be completed through ERCOT (The Energy Reliability Council of Texas), will use ERCOT's transmission scheduling procedures and market structures, and will be coordinated with the Comisión Federal de Electricidad (CFE) in Mexico. Global Pure Energy states that the existing international transmission facilities that it proposes to utilize have been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission's (FERC) Rules of Practice and Procedures (18 CFR 385.211). Any person desiring to become a party to these proceedings should file a motion to intervene at the above address in accordance with FERC Rule 214 (18 CFR 385.214). Five copies of such comments, protests, or motions to intervene should be sent to the address provided above on or before the date listed above.

Comments on the Global Pure Energy application to export electric energy to Mexico should be clearly marked with OE Docket No. EA-390. An additional copy is to be provided directly to Richard Edward Garza, Vice President, Global Pure Energy, LLC, 3200 Southwest Freeway, Suite 3300, Houston, TX 77027. A final decision will be made on this application after the environmental impacts have been evaluated pursuant to DOE's National Environmental Policy Act Implementing Procedures (10 CFR Part 1021) and after a determination is made by DOE that the proposed action will not have an adverse impact on the sufficiency of supply or reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program Web site at <http://energy.gov/node/11845>, or by emailing Angela Troy at Angela.Troy@hq.doe.gov.

Issued in Washington, DC, on January 8, 2014.

Brian Mills,

Director, Permitting and Siting, Office of Electricity Delivery and Energy Reliability.

Federal Energy Regulatory Commission

[Docket No. CP14-32-000]

Panhandle Eastern Pipe Line Company, LP; Notice of Application

Take notice that on December 19, 2013, Panhandle Eastern Pipe Line Company, LP (Panhandle), 1300 Main Street, Houston Texas 77002, filed an application pursuant to Section 7(b) of the Natural Gas Act and Part 157 of the Commission's Regulations, for authorization to abandon the remaining

reciprocating compressor units and ancillary equipment at the Mouser Compressor Station located in Texas County, Oklahoma. The filing may also be viewed on the Web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (886) 208-3676 or TTY, (202) 502-8659.

Any questions regarding this application should be directed to Stephen Veatch, Senior Director of Certificates, Panhandle Eastern Pipe Line Company, LP, 1300 Main Street, Houston, Texas 77002. Telephone (713) 989-2024, fax (713) 989-1205, and email: Stephen.Veatch@energytransfer.com.

Specifically, Panhandle proposes to abandon all above and below ground facilities at the Mouser Compressor Station, with the exception of the Mouser CTM (#13858) and the 16-inch Hooker Lateral (43-02-044-001). The abandonment includes the removal of seven existing compressor units totaling 4,594 horsepower. In addition, Panhandle will install a 10-foot segment of 10-inch pipe between the existing 16-inch suction line and the existing 10-inch discharge line in order to maintain production into the existing Hooker Lateral. All project activity will be confined to the 5.21-acre boundary of the station yard and cost approximately \$382,985.

Pursuant to Section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding, or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project

should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 5 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

Motions to intervene, protests and comments may be filed electronically via the internet in lieu of paper; see, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The

Commission strongly encourages electronic filings.

Comment Date: 5:00 p.m. Eastern Time on January 24, 2014.

Dated: January 3, 2014..

Nathaniel J. Davis, Sr.,

Deputy Secretary.
