

psychological consultant by that date. Thus, in this test, we will apply the modified processes to: (1) New initial claims filed on or after the controlling date (see below), and (2) initial claims that are filed before that date but for which the disability determination forms we use to have the State agency certify the disability determination have not been signed by a disability examiner and, if applicable, by a medical or psychological consultant as of that date. We will send a letter explaining the process modifications to individuals whose pending claims are grandfathered into the modified process.

This means that the modified processes, including the opportunity for a claimant conference with the decision maker and elimination of the reconsideration step of the administrative review process, will be used for pending initial claims, resulting in fewer reconsideration claims flowing to the test site after the modified process is implemented. We believe this change will provide us with information that will enable us to manage the transition to the modified process more effectively and result in better service for all disability applicants. In order to measure the effect of this change on our operations, we will begin to follow the modified process in the following locations beginning on the date indicated for each location:
