Scope of Investigation: Having considered the complaint, the U.S. International Trade Commission, on April 14, 2025, ORDERED THAT—

(1) Pursuant to subsection (b) of section 337 of the Tariff Act of 1930, as amended, an investigation be instituted to determine whether there is a violation of subsection (a)(1)(B) of section 337 in the importation into the United States, the sale for importation, or the sale within the United States after importation of certain products identified in paragraph (2) by reason of infringement of one or more of claims 1–20 of the '233 patent; 1–14 of the '252 patent; and 1–19 of the '111 patent, and whether an industry in the United States exists as required by subsection (a)(2) of section 337;

¹ In this plain English statement of the scope of the investigation, “components thereof” is included pursuant to the allegations in the amended complaint. To the extent that the complainants have included such an allegation based upon a concern regarding specific components, the complainants should, during the course of this investigation, seek adjudication and specifically identify the components of the claimed invention sought for exclusion. The lack of adjudication of specific components, however, would not affect any later ability to adjudicate and remedy circumvention through the importation of components with additional enforcement actions.
