SUMMARY: Pursuant to the National Environmental Policy Act (NEPA), this notice advises the public that the U.S. Fish and Wildlife Service (Service) intends to prepare an EIS to evaluate the impacts of and alternatives for the possible issuing an incidental take permit, pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973, as amended (Act), to Pima County. Pima County proposes to be an applicant for an incidental take permit, through development and implementation of the Sonoran Desert Conservation Plan (SDCP), which will serve as a habitat conservation plan, as required by the Act for issuance of an incidental take permit. The SDCP will provide the measures to minimize and mitigate the effects of the proposed taking on listed and sensitive species and the habitats upon which they depend.

may be obtained on the Internet at <http://www.co.pima.az.us/cmo/sdcp/index.html>.

SUPPLEMENTARY INFORMATION: This notice advises the public that the Service intends to gather information necessary to determine impacts and formulate alternatives for an EIS related to the potential issuance of an incidental take permit to Pima County, Arizona, and the development and implementation of the SDCP, which will provide measures to minimize and mitigate the effects of the incidental take of federally listed species.

Background

Pima County, Arizona, is home to over 800,000 residents, and the population is expected to reach 1.2 million by the year 2020. The Pima County Board of Supervisors is responsible for the protection of those lands in unincorporated Pima County that are of environmental, cultural, or historic importance. Given Pima County's rapid growth rate, Pima County has recognized the need to balance economic, environmental, and human interests by implementing a regional ecosystem-based multi-species conservation program.

Section 9 of the Act prohibits the "taking" of threatened and endangered species. The Service may, however, under limited circumstances, issue permits to take federally listed and candidate species, incidental to, and not the purpose of, otherwise lawful activities. Regulations governing permits for endangered species are at 50 CFR 17.22. The term "take" under the Act means to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or attempt to engage in any such conduct. The proposed permit would allow approved incidental take outside of proposed preserve lands within the proposed permit boundaries.

Section 10(a)(1)(B) of the Act and regulations at 50 CFR 17.32, contain provisions for issuing incidental take permits to non-federal entities for the take of endangered and threatened species, provided the following criteria are met:

1. The taking will be incidental;
2. The applicant will, to the maximum extent practicable, minimize and mitigate the impacts of such taking;
3. The applicant will ensure that adequate funding for the Plan will be provided;
4. The taking will not appreciably reduce the likelihood of the survival and recovery of the species in the wild; and
5. Any other measures that the Service may require as being necessary
