

ERP No. D-FHW-F40405-IL Rating EC2, US 34/FAP 313 Transportation Facility Improvement Project, US 34 from the Intersection of Carman Road east of Gulfport to Monmouth, Funding and US Army COE Section 404 and NPDES Permits Issuance, Henderson and Warren Counties, IL.

Summary: EPA has identified issues, and expressed environmental concerns, relating to characterization of existing water quality, impacts to impaired waters and impacts to Botanical Site #3, a small sand hill prairie with a diverse mixture of grasses and forbs. Accordingly, EPA has requested additional information.

Final EISs

ERP No. F-AFS-J65348-CO Bark Beetle Analysis, Proposal to Reduce Infestation of Trees by Tree-Killing Bark Beetles, Medicine Bow-Routt National Forests, Hahans Peak/Bears Ears Ranger District, Routt, Grand, Jackson and Moffat Counties, CO.

Summary: EPA generally supports the suppression and control actions; however, EPA expressed environmental concerns regarding impacts from 15.3 miles of new roads and the effectiveness of preventative thinning to avert a predicted beetle epidemic.

ERP No. F-FHW-F40388-WI US-14/61 Westby—Viroqua Bypass Corridor Study, Transportation Improvements, Funding and US Army COE Section 404 Permit, Cities of Viroqua and Westby, Vernon County, WI.

Summary: EPA has no objection to the proposed action.

ERP No. F-NPS-J65346-WY Devil's Tower National Monument General Management Plan, Implementation, Crook County, WY.

Summary: No formal comment letter was sent to the preparing agency.

ERP No. F-UAF-J11019-MT Montana Air National Guard Air-to-Ground Training Range Development for Use by the 120th Fighter Wing (120th FW), Implementation, Phillips and Blaine Counties, MT.

Summary: EPA continues to express environmental concerns regarding impacts to people and wildlife from noise and visual stimuli from low altitude F-16 flights and other range activities.

ERP No. F-USA-J13000-CO Pueblo Chemical Depot, Destruction of Chemical Munitions, Design, Construction, Operation and Closure of a Facility, Pueblo County, CO.

Summary: No formal comment letter was sent to the preparing agency.

Dated: May 21, 2002.

Joseph C. Montgomery,

Director, NEPA Compliance Division, Office of Federal Activities.

EPA Science Advisory Board; Notification of Public Advisory Committee Meetings

Pursuant to the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the Drinking Water Committee (DWC) of the US EPA Science Advisory Board (SAB) will meet via public teleconference on the date and at the time noted below. All times noted are Eastern Time. The meeting is open to the public, however, seating is limited and available on a first come basis. *Important Notice*: Documents that are the subject of SAB reviews are normally available from the originating EPA office and are not available from the SAB Office—information concerning availability of documents from the relevant Program Office is included below.

The Drinking Water Committee of the US EPA Science Advisory Board (SAB), will conduct a public teleconference meeting on June 11, 2002. The meeting will begin at 1 pm and adjourn no later than 4 p.m. the same day. The meeting will be coordinated through a conference call connection in Room 6013 in the USEPA, Ariel Rios Building North, 1200 Pennsylvania Avenue, NW., Washington, DC 20004. The public is encouraged to attend the meeting in the conference room noted above, however, the public may also attend through a telephonic link if lines are available. Additional instructions about how to participate in the conference call can be obtained by calling Ms. Mary Winston at (202) 564-4538, or via e-mail at winston.mary@epa.gov. Presentation slides will be placed on the SAB Web site (www.epa.gov/sab/) prior to the start of the meeting.

Purpose of the Meeting—The primary purpose of this meeting will be for staff from EPA's Office of Water to provide background briefings sufficient for the Committee to develop a systematic plan for responding to the agency request on two topics: (1) Six-Year Review of Existing Regulations Notice of Intent on

Review Decisions (6-YR) and (2) Contaminant Candidate List Notice of Intent on Regulatory Determinations (CCL1). The review will NOT be conducted on this conference call. A draft agenda for this meeting will be available from the DFO or Management Assistant approximately one week before the meeting.

Background Information about the 6-Year Review of Existing Regulations: EPA recently announced its preliminary revise/not revise decisions for 68 chemical National Primary Drinking Water Regulations (NPDWRs) and the Total Coliform Rule (TCR) (67 FR 19030; April 17, 2002). The Safe Drinking Water Act (SDWA) requires EPA to periodically review existing NPDWRs and, if appropriate, revise them [Section 1412(b)(9) of SDWA, as amended in 1996]

The primary goal of the Six Year Review is to identify, prioritize and target candidates for regulatory revision that are most likely to result in an increased level of public health protection and/or a substantial cost savings while maintaining the level of public health protection. To address this goal, EPA, in consultation with the National Drinking Water Advisory Council (NDWAC) and other stakeholders, developed a systematic approach, or protocol, for the review of existing NPDWRs. The protocol focused on several key elements, including: (i) Health effects (to identify potential changes in the Maximum Contaminant Level Goal (MCLG or health effects goal) and perhaps to the maximum contaminant level (MCL)); (ii) analytical feasibility (to identify potential changes in analytical feasibility for those contaminants where the Maximum Contaminant Level (MCL) was limited by the measurement feasibility and to review analytical feasibility limitations for contaminants that may have potential changes in the MCLG); (iii) treatment (to evaluate treatment feasibility if potential changes in MCLG/MCL are likely and to evaluate if there is an indication that the best available technology (BAT) or treatment technique (TT) requirements need review); (iv) other regulatory changes (to identify any potential non-MCLG/MCL or non-TT types of changes that apply to public water systems, are ready for rulemaking and are not being addressed under alternative mechanisms); (v) occurrence and exposure (to evaluate the extent of occurrence and exposure where a potential change in health or technology provides a potential basis for revising the regulation); and (vi) economics (to qualitatively consider economic impacts where a health or
