

maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Lime manufacturing plants.

Estimated Number of Respondents: 62.

Frequency of Response: Initially, occasionally, and semiannually.

Estimated Total Annual Hour Burden: 14,723.

Estimated Total Annual Cost: \$1,509,024, which includes \$1,384,616 in labor costs, \$88,908 in capital/startup costs, and \$35,500 in operation and maintenance (O&M) costs.

Changes in the Estimates: The increase in burden hours and number of responses from the most recently approved ICR is due to an increase in the number of respondents. This ICR based the number of respondents on the number of lime manufacturing plants identified during the rulemaking and accounted for the one additional respondent per year since the rule became final. The previous ICR had identified the number of respondents as the number of companies with plants subject to the rule, but each plant should be considered a separate respondent and this correction is reflected in this ICR. An increase in burden per response also occurred due to an incorrect calculation of the number of responses in the previous ICR. The decrease in capital and annual O&M costs reflects a change made to account for the fact that initial performance testing for Method 5 has been completed for existing sources, and the only units subject to initial testing is estimated to be one respondent per year. The existing 61 respondents are only subject to repeat performance testing every five years, or 12.2 respondents per year. The capital and O&M costs also changed to include the costs for bag leak detection monitors to be consistent with the costs presented in the 2004 final rulemaking notice.

Dated: December 18, 2009.

John Moses,

Director, Collection Strategies Division.

Proposal Not To Reissue NPDES General Permit for Egg Production Operations in New Mexico, Oklahoma, and on Indian Lands in New Mexico and Oklahoma (NMG800000 and OKG800000)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Proposal not to reissue NPDES General Permit.

SUMMARY: EPA Region 6 is providing notice that the Agency does not intend to reissue the National Pollutant Discharge Elimination System (NPDES) General Permit for Egg Production Operations (EPOs) in New Mexico and Oklahoma (NMG800000 and OKG800000) which was issued on July 18, 2002 (67 FR 47362). The permit expired on August 17, 2007 and was never reissued. Part I.G of the permit stipulates that the permit be administratively continued until the permit is reissued or EPA publishes a determination not to reissue the permit. With this notice, EPA provides notice of its determination not to reissue the permit. No facilities applied for or were granted coverage under this permit. At this time, any facility eligible for coverage under this general permit that is seeking NPDES permit coverage should submit an application for an individual permit.

FOR FURTHER INFORMATION CONTACT: Scott Stine, NPDES Permits and TMDL Branch (6WQ-PP), Environmental Protection Agency, 1445 Ross Ave., Suite 1200, Dallas, TX 75202; telephone number: (214) 665-7182; fax number: (214) 665-2191; e-mail address: stine.scott@epa.gov.

SUPPLEMENTARY INFORMATION: At the time of permit issuance, the United Egg Producers (UEP), a former cooperative that represents egg producers nationwide, was in an XL project agreement with EPA to allow eligible facilities to obtain permit coverage under a general permit. Project XL was a national pilot program that allowed state and local governments, businesses and federal facilities to develop with EPA more cost-effective ways of achieving environmental and public health protection. With this notice not to reissue the general permit, EPA is closing out this XL project as it is no longer active.

Authority: Clean Water Act, 33 U.S.C. 1251 *et seq.*

Dated: December 3, 2009.

Miguel I. Flores,

Director, Water Quality Protection Division, EPA Region 6.

Notice of Proposed Administrative Settlement Pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; request for public comment.

SUMMARY: In accordance with Section 122 (h) of the Comprehensive Environmental Response, Compensation, and Liability Act, as amended ("CERCLA"), 42 U.S.C. 9622(i), notice is hereby given of a proposed administrative settlement concerning the Malone Service Company Superfund Site, Texas City, Galveston County, Texas.

The settlement requires the one-hundred twenty-two (122) settling parties to pay a total of \$3,103,173 payment of response costs to the Hazardous Substances Superfund. The settlement includes a covenant not to sue pursuant to Sections 106 or 107 of CERCLA, 42, U.S.C. 9606 or 9607.

For thirty (30) days following the date of publication of this notice, the Agency will receive written comments relating to this notice and will receive written comments relating to the settlement. The Agency will consider all comments received and may modify or withdraw its consent to the settlement if comments received disclose facts or considerations which indicate that the settlement is inappropriate, improper, or inadequate. The Agency's response to any comments received will be available for public inspection at 1445 Ross Avenue, Dallas, Texas 75202-2733.

DATES: Comments must be submitted on or before January 28, 2010.

ADDRESSES: The proposed settlement and additional background information relating to the settlement are available for public inspection at 1445 Ross Avenue, Dallas, Texas 75202-2733. A copy of the proposed settlement may be obtained from Patrice Miller, 1445 Ross Avenue, Dallas, Texas 75202-2733 or by calling (214) 665-3158. Comments should reference the Malone Service
