

**Authority:** 16 U.S.C. 1801 *et seq.*

republish newly redesignated paragraph (g) to read as follows:

**§ 665.211 Annual Catch Limits (ACL) and Annual Catch Targets (ACT).**

■ 2. In § 665.211 revise the section heading and paragraphs (a) and (b), redesignate paragraph (f) as paragraph (g), add a new paragraph (f), and

(a) In accordance with § 665.4, the ACLs and ACTs for MHI bottomfish fisheries for each fishing year are as follows:

Fishery	2021–22 ACT (lb)	2022–23 ACT (lb)	2023–24 ACT (lb)
Deep 7 bottomfish .....	492,000	492,000	492,000

  

Fishery	2022 ACT (lb)	2023 ACT (lb)	2024 ACT (lb)	2025 ACT (lb)
Uku .....	295,419	295,419	295,419	295,419

  

Fishery	2022 ACT (lb)	2023 ACT (lb)	2024 ACT (lb)	2025 ACT (lb)
Uku .....	291,010	291,010	291,010	291,010

(b) When a bottomfish ACL or ACT is projected to be reached based on analyses of available information, the Regional Administrator shall publish a document to that effect in the **Federal Register** and shall use other means to notify permit holders. The document will include an advisement that the fishery will be closed beginning at a specified date, which is not earlier than seven days after the date of filing the closure notice for public inspection at the Office of the Federal Register, until the end of the fishing year in which the ACL or ACT is reached.

\* \* \* \* \*

(f) If the average total landings of uku in the most recent three years exceed the specified ACL in a fishing year, the Regional Administrator will reduce the uku ACL and ACT for the subsequent year by the amount of the overage in a separate rulemaking.

(g) Fishing for, and the resultant possession or sale of, any bottomfish MUS by vessels legally registered to Mau Zone, Ho'omalu Zone, or PRIA bottomfish fishing permits and conducted in compliance with all other laws and regulations, is exempted from this section.

**BILLING CODE 3510–22–P**

**DEPARTMENT OF COMMERCE**

**National Oceanic and Atmospheric Administration**

**50 CFR Part 679**

[Docket No. 220216–0049; RTID 0648–XB790]

**Fisheries of the Exclusive Economic Zone Off Alaska; Pacific Cod by Catcher/Processors Using Hook-and-Line Gear in the Western Regulatory Area of the Gulf of Alaska**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Temporary rule; closure.

**SUMMARY:** NMFS is prohibiting directed fishing for Pacific cod by catcher/processors using hook-and-line (HAL) gear in the Western Regulatory Area of the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the A season allowance of the 2022 Pacific cod total allowable catch (TAC) apportioned to catcher/processors using HAL gear in the Western Regulatory Area of the GOA.

**DATES:** Effective 1200 hours, Alaska local time (A.l.t.), March 23, 2022, through 1200 hours, A.l.t., June 10, 2022.

**FOR FURTHER INFORMATION CONTACT:** Obren Davis, 907–586–7241.

**SUPPLEMENTARY INFORMATION:** NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council

under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The A season allowance of the 2022 Pacific cod TAC apportioned to catcher/processors using HAL gear in the Western Regulatory Area of the GOA is 732 metric tons (mt) as established by the final 2022 and 2023 harvest specifications for groundfish in the GOA (87 FR 11599, March 2, 2022).

In accordance with § 679.20(d)(1)(i), the Regional Administrator has determined that the A season allowance of the 2022 Pacific cod TAC apportioned to catcher/processors using HAL gear in the Western Regulatory Area of the GOA will soon be reached. Therefore, the Regional Administrator is establishing a directed fishing allowance of 722 mt and is setting aside the remaining 10 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for Pacific cod by catcher/processors using HAL gear in the Western Regulatory Area of the GOA.

While this closure is effective the maximum retainable amounts at § 679.20(e) and (f) apply at any time during a trip.

**Classification**

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR part 679, which was issued pursuant to

section 304(b), and is exempt from review under Executive Order 12866.

Pursuant to 5 U.S.C. 553(b)(B), there is good cause to waive prior notice and an opportunity for public comment on this action, as notice and comment would be impracticable and contrary to the public interest, as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the closure of Pacific cod by catcher/processors using HAL

gear in the Western Regulatory Area of the GOA. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of March 22, 2022.

The Assistant Administrator for Fisheries, NOAA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for

waiver of prior notice and opportunity for public comment.
