Becoming an Intervenor

In addition to involvement in the EA scoping process, you may want to become an “intervenor” which is an official party to the Commission’s proceeding. Intervenor’s play a more formal role in the process and are able to file briefs, appear at hearings, and be heard by the courts if they choose to appeal the Commission’s final ruling. An intervenor formally participates in the proceeding by filing a request to intervene. Instructions for becoming an intervenor are located under the *Help* link on the Commission’s Web site, by clicking on “*How to Intervene*.”

On August 30, 2012, Archon Energy 1, Inc., filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Crocker-Huffman Diversion Dam Hydroelectric Project (Crocker-Huffman Project or project) to be located on the Merced River, near the town of Merced, in Merced County, California. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners’ express permission.

The proposed project would be located at the existing Crocker-Huffman

diversion dam and would consist of the following: (1) A 70-foot-long, 55-foot-wide, and 35-foot-high, turbine structure containing a powerhouse with 5 screw turbine generating units; (2) a gated water intake canal, located upstream of the dam; and (3) a 75-foot-wide and 150-foot-long concrete diversion trough structure. The estimated annual generation of the Crocker-Huffman Project would be 10 gigawatt-hours.
