AGENCY: Agricultural Marketing Service, USDA.

ACTION: Interim amendment of rules.

SUMMARY: This interim rule amends, on an emergency basis, the Class III and Class IV pricing formulas used in Federal milk orders, effective for milk marketed on or after January 1, 2001. The rule thereby conforms to the requirements of the Consolidated Appropriations Act, 2000, which mandated reconsideration of the Class III and Class IV pricing formulas included in the final rule for the consolidation and reform of Federal milk orders, with amendments to be effective January 1, 2001.

This rule reduces the cheese make allowance used in the Class III component price calculations, increases the make allowances used in the Class IV component price calculations, provides for separate Class III and Class IV butterfat prices, and removes the butterfat adjustment factor from the protein price formula.

More than the required number of producers in each of the aforesaid marketing areas have approved the issuance of the interim amendments.

EFFECTIVE DATE: January 1, 2001.

SUPPLEMENTARY INFORMATION: This administrative rule is governed by the provisions of Sections 556 and 557 of Title 5 of the United States Code and, therefore, is excluded from the requirements of Executive Order 12866.

This interim final rule has been reviewed under Executive Order 12988, Civil Justice Reform. This rule is not intended to have retroactive effect. This rule will not preempt any state or local laws, regulations, or policies, unless they present an irreconcilable conflict with the rule.

The Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any handler subject to an order may request modification or exemption from such order by filing with the Secretary a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with the law. A handler is afforded the opportunity for a hearing on the petition. After a hearing, the Secretary would rule on the petition. The Act provides that the District Court of the United States in any district in which the handler is an inhabitant, or has its principal place of business, has jurisdiction in equity to review the Secretary's ruling on the petition, provided a bill in equity is filed not later than 20 days after the date of the entry of the ruling.

Small Business Consideration

Pursuant to the requirements set forth in the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), the Agricultural Marketing Service (AMS) considered the economic impact of the changes to the Federal milk marketing order program implemented by this interim final rule on small entities and prepared a regulatory flexibility analysis that was included in the tentative decision (65 FR 76832). The analysis indicates that the Department minimized the significant economic impacts of the regulations on small entities to the fullest extent reasonably possible while adhering to the stated objectives. The Department reviewed the regulatory and financial burdens resulting from the regulations and determined, to the

fullest extent possible, the impact on small businesses' abilities to compete in the market place. The Department reviewed the regulations from both the small producer and small processor perspectives, attempting to maintain a balance between these competing interests. Neither small producers nor small handlers should experience any particular disadvantage as a result of the interim amendments.

No additional information collection or reporting requirements will be necessitated by the amendments.

An analysis of the economic effects of the alternatives selected was done and summarized in the tentative final decision. A complete economic analysis is available upon request from Howard McDowell, Senior Economist, USDA/AMS/Dairy Programs, Office of the Chief Economist, Room 2753, South Building, U.S. Department of Agriculture, Washington, DC 20250, (202) 720-7091, e-mail address howard.mcdowell@usda.gov

Civil Rights Impact Statement

Pursuant to Departmental Regulation (DR) 4300-4, a comprehensive Civil Rights Impact Analysis (CRIA) was conducted and published with the final decision on Federal milk order consolidation and reform. The conclusion of that analysis disclosed no potential for affecting dairy farmers in protected groups differently than the general population of dairy farmers. This issue was reconsidered in the tentative decision (65 FR 76832) with regard to the interim amendments, and the conclusion has not changed.

Copies of the Civil Rights Impact Analysis done for the final decision on Federal milk order consolidation and reform can be obtained from AMS Dairy Programs at (202) 720-4392; any Milk Market Administrator office; or via the Internet at: www.ams.usda.gov/dairy/ Prior documents in this proceeding: Notice of Hearing: Issued April 6, 2000; published April 14, 2000 (65 FR 20094).

Tentative Final Decision: Issued November 29, 2000; published December 7, 2000 (65 FR 76832).

Findings and Determinations

The findings and determinations hereinafter set forth supplement those that were made when the aforesaid orders were first issued and when they were amended. The previous findings and determinations are hereby ratified and confirmed, except where they may conflict with those set forth herein.

The following findings and determinations are hereby made with respect to each of the aforesaid orders:

(a) Findings upon the basis of the hearing record. Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreements and to the orders regulating the handling of milk in the Northeast and other marketing areas.

Upon the basis of the evidence introduced at such hearing and the record thereof it is found that:

(1) The said orders, as hereby amended on an interim basis, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing areas, and the minimum prices specified in the orders, as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said orders, as hereby amended on an interim basis, regulate the handling of milk in the same manner as, and are applicable only to persons in the respective classes of industrial and commercial activity specified in, marketing agreements upon which a hearing has been held.

(b) Additional Findings. It is necessary in the public interest to make these interim amendments to the Northeast and other orders effective January 1, 2001, to meet the requirements of the Consolidated Appropriations Act, 2000 (P.L. 106–113, 115 Stat. 1501). Any delay beyond that date would tend to disrupt the orderly marketing of milk in the aforesaid marketing areas.

The interim amendments to these orders are known to handlers. The tentative final decision containing the proposed amendments to these orders was issued on November 29, 2000.

The changes that result from these interim amendments will not require extensive preparation or substantial alteration in the method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making these order amendments effective January 1, 2001. It would be contrary to the public interest to delay the effective date of these

amendments for 30 days after their publication in the **Federal Register**. (Sec. 553(d), Administrative Procedure Act, 5 U.S.C. 551–559.)

(c) Determinations. It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in Sec. 8c(9) of the Act) of more than 50 percent of the milk, which is marketed within the specified marketing areas, to sign proposed marketing agreements, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this interim order amending the Northeast and other orders is the only practical means pursuant to the declared policy of the Act of advancing the interests of producers as defined in the orders as hereby amended;

(3) The issuance of the interim order amending the Northeast and other orders is favored by at least two-thirds of the producers who were engaged in the production of milk for sale in the respective marketing areas.

2. Section 1001.61 is revised to read as follows:

§ 1001.61 Computation of producer butterfat price and producer price differential.

For each month, the market administrator shall compute a producer butterfat price per pound of butterfat and a producer price differential per hundredweight for producer milk

receipts. The report of any handler who has not made payments required pursuant to § 1001.71 for the preceding month shall not be included in the computation of these prices, and such handler's report shall not be included in the computation for succeeding months until the handler has made full payment of outstanding monthly obligations. Subject to the aforementioned conditions, the market administrator shall compute the producer butterfat price and the producer price differential in the following manner:

(a) *Producer butterfat price.* The producer butterfat price per pound, rounded to the nearest one-hundredth cent, shall be computed by:

(1) Multiplying the pounds of butterfat in producer milk allocated to each class pursuant to § 1000.44(b) by the respective class butterfat prices;

(b) *Producer price differential.* (1) Combine into one total the values computed pursuant to § 1001.60 for all handlers required to file reports prescribed in § 1001.30;

(2) Subtract the total of the values obtained:

(i) By multiplying the total pounds of protein, other solids, and butterfat contained in each handler's producer milk for which an obligation was computed pursuant to § 1001.60(a) through (g) and § 1001.60(i) by the protein price, other solids price, and producer butterfat price, respectively;

(ii) By multiplying each handler's pounds of skim milk and butterfat for which a value is computed pursuant to § 1001.60(h) by the Class III skim milk price and the producer butterfat price, respectively;

(3) Add an amount equal to the minus location adjustments and subtract an amount equal to the plus location adjustments computed pursuant to § 1001.75;

(4) Add an amount equal to not less than one-half of the unobligated balance in the producer-settlement fund;

(5) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(i) The total hundredweight of producer milk; and
(ii) The total hundredweight for which a value is computed pursuant to § 1001.60(h); and

(6) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to paragraph (b)(5) of this section. The result shall be known as the *producer price differential* for the month.

3. Section 1001.62 is amended by revising paragraphs (e) and (g) to read as follows:

§ 1001.62 Announcement of producer prices.

2. Section 1135.61 is revised to read as follows:

§ 1135.61 Computation of producer butterfat price and producer price differential.

For each month, the market administrator shall compute a producer butterfat price per pound of butterfat and a producer price differential per hundredweight. The report of any

handler who has not made payments required pursuant to § 1135.71 for the preceding month shall not be included in these computations, and such handler's report shall not be included in the computation for succeeding months until the handler has made full payment of outstanding monthly obligations. Subject to the conditions of this paragraph, the market administrator shall compute the producer butterfat price and the producer price differential in the following manner:

(a) *Producer butterfat price.* The producer butterfat price per pound, rounded to the nearest one-hundredth cent, shall be computed by:

(1) Multiplying the pounds of butterfat in producer milk allocated to each class pursuant to § 1000.44(b) by the respective class butterfat prices;

(2) Adding the butterfat value calculated in § 1135.60(h) for other source milk allocated to Class I pursuant to § 1000.43(d) and the steps of § 1000.44(b) that correspond to § 1000.44(a)(3)(i) and § 1000.44(a)(8) by the Class I price; and

(3) Dividing the sum of paragraphs (a)(1) and (a)(2) of this section by the sum of the pounds of butterfat in producer milk and other source milk used to calculate the values in paragraphs (a)(1) and (a)(2) of this section.

(b) *Producer price differential.* (1) Combine into one total the values computed pursuant to § 1135.60 for all handlers required to file reports prescribed in § 1135.30;

(2) Subtract the total of the values obtained:

(i) By multiplying the total pounds of protein, other solids, and butterfat contained in each handler's producer milk for which an obligation was computed pursuant to § 1135.60(a) through (g) and § 1135.60(i) by the protein price, other solids price, and producer butterfat price, respectively;

(ii) By multiplying each handler's pounds of skim milk and butterfat for which a value is computed pursuant to § 1135.60(h) by the Class III skim milk price and the producer butterfat price, respectively;

(3) Add an amount equal to the minus location adjustments and subtract an amount equal to the plus location adjustments computed pursuant to § 1135.75;

(4) Add an amount equal to not less than one-half of the unobligated balance in the producer-settlement fund;

(5) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(i) The total hundredweight of producer milk; and

(ii) The total hundredweight for which a value is computed pursuant to § 1135.60(h); and

(6) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to paragraph (b)(5) of this section. The result shall be known as the *producer price differential* for the month.
