

### Nature of Decision To Be Made

Given the purpose and need of the project, the Forest Supervisor will review alternatives and consider the environmental consequences of those alternatives in making his decisions, including: (1) Whether to select the proposed action or another alternative; (2) the effects of road construction, reconstruction, and closure; (3) mitigation measures and monitoring; and (4) whether there may be a significant restriction to subsistence resources.

### Preliminary Issues

Preliminary concerns identified by the interdisciplinary team include: (1) Designing an economical timber sale(s) that contributes to meeting market demand; (2) effects of timber harvest and road construction on wildlife, including habitat, travel corridors, and subsistence use of deer; and (3) effects of timber harvest and road construction on watershed condition.

### Permits or Licenses Required

All necessary permits will be obtained prior to project implementation.

### Scoping Process

This notice of intent initiates the scoping process, which guides the development of the EIS. The Forest Service is soliciting internal and external input on the issues, impacts, and alternatives that will be addressed in the EIS. Scoping packages will be distributed to interested parties who have subscribed through an electronic mailing list to receive project information. Individuals and organizations wishing to subscribe may do so at: <https://public.govdelivery.com/accounts/USDAFS/subscriber/new?preferences=true>.

Additionally, there will be opportunities for involvement including open houses and subsistence hearings held in Prince of Wales Island communities. Project information, meeting announcements, notices, and documents will be provided on the project web page at: [http://www.fs.fed.us/nepa/nepa\\_project\\_exp.php?project=58626](http://www.fs.fed.us/nepa/nepa_project_exp.php?project=58626).

Forest Service regulations at 36 CFR part 218, subparts A and B (78 FR18481–18504) regarding the project-level, predecisional administrative review process applies to projects and activities implementing land management plans. The Twin Mountain II Timber Sale is an activity implementing the Forest Plan and is subject to 36 CFR 218.

Only individuals or entities who submit timely and specific written

comments concerning this project during this or other designated public comment periods established by the Responsible Official will be eligible to file an objection. It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the EIS. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions.

Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. While comments submitted anonymously will be accepted and considered, they will not provide the submitters standing to participate in the predecisional review process.

### Foreign-Trade Zones Board

[B–57–2020]

#### **Foreign-Trade Zone (FTZ) 7—Mayaguez, Puerto Rico; Notification of Proposed Production Activity; Patheon Puerto Rico, Inc. (Pharmaceutical Products); Manatí, Puerto Rico**

Patheon Puerto Rico, Inc. (Patheon), submitted a notification of proposed production activity to the FTZ Board for its facility in Manatí, Puerto Rico. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on September 2, 2020.

Patheon already has authority to produce certain pharmaceutical products within Subzone 7L. The current request would add a foreign status material to the scope of authority. Pursuant to 15 CFR 400.14(b), additional FTZ authority would be limited to the specific foreign-status material described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Patheon from customs duty payments on the foreign-status material used in export production. On its domestic sales, for the foreign-status material noted below, Patheon would be able to choose the duty rates during customs entry procedures that apply to its already authorized finished products (duty-free). Patheon would be able to avoid duty on the foreign-status material which becomes scrap/waste. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The material sourced from abroad is microcrystalline cellulose (duty rate 5.2%). The request indicates that microcrystalline cellulose is subject to duties under Section 301 of the Trade Act of 1974 (Section 301), depending on the country of origin. The applicable Section 301 decisions require subject merchandise to be admitted to FTZs in privileged foreign status (19 CFR 146.41).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary and sent to: [ftz@trade.gov](mailto:ftz@trade.gov). The closing period for their receipt is October 26, 2020.

A copy of the notification will be available for public inspection in the "Reading Room" section of the Board's website, which is accessible via [www.trade.gov/ftz](http://www.trade.gov/ftz).
