Title: Updating Maximum Permitted Rates for Regulated Services and Equipment.

Form Number: FCC Form 1210.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; State, Local or Tribal Government.

Number of Respondents: 3,900.

Estimated Time per Response: 2-15 hours.

Frequency of Response: On occasion reporting requirement; Third party disclosure requirement.

Total Annual Burden: 36,000 hours.

Total Annual Cost: \$1,500,000.

Privacy Impact Assessment: No impact(s).

Needs and Uses: Section 623 of the Cable Television Consumer Protection and Competition Act of 1992 requires the Commission to prescribe rules and regulations for determining reasonable rates for basic tier cable service and to establish criteria for identifying

unreasonable rates for cable programming services and associated equipment. To implement its scheme of rate regulation, the Commission developed a series of rate regulation forms, including FCC Form 1210, Updating Maximum Permitted Rates for Regulated Services and Equipment.

Cable operators use FCC Form 1210 to file for adjustments in maximum permitted rates for regulated services to reflect external costs. Regulated cable operators submit this form to local franchising authorities or the Commission (in situations where the FCC has assumed jurisdiction). In addition, cable operators use FCC Form 1210 to file a response to a complaint filed with the Commission concerning cable programming service rates and associated equipment.

On June 19, 2002, the Commission released a Notice of Proposed Rulemaking ("NPRM"), MB Docket No. 02-144, FCC 02-177, initiated to reflect the March 31, 1999 sunset of Commission jurisdiction to regulate rates for cable programming services ("CPS") enacted by the Telecommunications Act of 1996 ("1996 Act"), 47 U.S.C. 543(c)(4).

Since the release of the NPRM in June 2002 as cited above, the Commission has taken no further action. Federal Communications Commission.

Secretary.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0027.

Title: Application for Construction Permit for Commercial Broadcast Station, FCC Form 301.

Form Number: FCC Form 301.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; Not-for-profit institutions.

Number of Respondents: 3,247.

Estimated Time per Response: 2 to 4 hours.

Frequency of Response: On occasion reporting requirement; Third party disclosure requirement.

Total Annual Burden: 8,380 hours.

Total Annual Cost: \$44,630,924.

Privacy Impact Assessment: No impact(s).

Needs and Uses: FCC Form 301 is used to apply for authority to construct a new commercial AM, FM, or TV broadcast station, or to make changes in existing facilities of such a station. This collection also includes the third party disclosure requirement of 47 CFR 73.3580, requiring local public notice in a newspaper of general circulation of the filing of all construction permit applications. FM licensees or permittees may request, by application on FCC Form 301, upgrades on adjacent and co-

channels, modifications to adjacent channels of the same class and downgrades to adjacent channels without first submitting a petition for rulemaking. All applicants using this one-step process must demonstrate that a suitable site exists which would comply with allotment standards with respect to minimum distance separation and city-grade coverage and which would be suitable for tower construction. To receive authorization for commencement of Digital Television ("DTV") operation, commercial broadcast licensees must file FCC Form 301 for a construction permit. This application may be filed anytime after receiving the initial DTV allotment but must be filed before mid-point in a particular applicant's required construction period. The Commission will consider these applications as minor changes in facilities. Applicants will not have to supply full legal or financial qualification information.

On June 24, 2004, the U.S. Court of Appeals for the Third Circuit (the "Court") issued an Opinion and Judgment ("Remand Order") in which it upheld certain aspects of the Commission's new media ownership rules adopted on June 2, 2003 (*See* 18 FCC Rcd 13620 (2003)), specifically those dealing with local radio ownership, while requiring further explanation for all other aspects of the new rules. In particular, the Court held that the use of Arbitron Metro markets, the inclusion of noncommercial stations in determining radio market size, the attribution of joint sale agreements, and certain transfer restrictions are consistent with the Administrative Procedure Act. The Court stated that its prior stay of all new ownership rules would remain in effect pending the outcome of the remand proceeding. The Commission filed a petition for rehearing requesting that the Court lift the stay partially—i.e., with respect to the radio ownership rules which the Court's *Remand Order* upheld. On September 3, 2004, the Court granted the Commission's petition, thus partially lifting the stay ("Rehearing Order"). As a result of the *Rehearing Order*, the new radio ownership rules took effect September 3, 2004.

Under the new radio ownership rules, radio Joint Sales Agreements (JSAs) are attributable and radio applicants are required to submit as a part of the FCC Form 301 a copy of any attributable JSA or time brokerage agreement.
