

1. Coverage—statewide, regional, specific to a subpopulation.

2. Source—vital statistics, medical records, Medicaid, insurance databases, area environmental monitoring, facility monitoring.

3. Reference year—year system began operation.

4. Timeliness—length of time between diagnosis/testing/environmental sampling and reporting to appropriate state/local agency.

5. Types of data elements—general categories such as geographic coordinates, demographics, measurements.

6. Mode of reporting—active vs. passive system; electronic (diskette, web-based, etc) vs. paper, etc).

7. Use of data—Has data been analyzed and reported to appropriate stakeholders? Has it been used in planning public health actions, hazard mitigation, special studies, etc?

B. Future assessment of health surveillance and environmental monitoring information systems: Future assessment of current surveillance information systems should include the following information on personnel, management practices and technical infrastructure.

1. A description of the health department and environmental department information technology (IT) infrastructure and architecture.

a. Describe relevant policies; the organization and decision-making processes; and decision-making responsibility and authority for surveillance and related IT in the health and environmental departments. Describe how they relate to state policies, etc. How does the loci of decision-making for surveillance and IT relate to one another and how are decisions made regarding IT for surveillance. Also, provide a description of how cross-program decisions are made.

b. Describe current technical infrastructure, including comments on: (1) whether the health department and environmental departments have a local area network that supports TCP/IP; (2) whether the health department and environmental department have firewalls; (3) what kind and version of server is used in the health department and environmental department (e.g., NT, Unix, other); (4) are local health departments included in state health department intranet? Are local environmental departments included in state environmental intranet? If so, through what kind of connection?

2. Comprehensive description of public health surveillance and environmental monitoring information systems.

a. Describe the purpose, scope, and capabilities of each system.

b. Describe the technical characteristics of each system, including information about the number and kind of platforms and technologies, and tools used (specifically, include information about communications and networking technologies).

c. Enumerate and describe functions of personnel dedicated to each system (e.g., epidemiologists, programmers, data base managers, data entry personnel, support staff).

d. Examine the comparability of data element specifications, data sources, and methods of data collection.

3. Describe the administration and operation of the health department's network, including staff and resources currently in place to support it, functions performed, and relationship to the state government's network administration and support.

4. Describe surveillance systems software development capacity, including resources in place to support this capacity, and description of current activities.

5. Identify current sources of support for surveillance and related IT (e.g., Federal funds other than the Environmental Public Health Tracking (surveillance) Network, State funds, etc.).

6. Describe interaction between state public health surveillance and environmental monitoring information systems and local health departments.

C. Additional guidance: Applicants should contact their State NEDSS Coordinator to determine if information obtained through NEDSS assessment and planning activities can contribute to the activities required in this program announcement.

Disease, Disability, and Injury Prevention and Control Special Emphasis Panel: New Investigator Awards for Unintentional, Violence, and Acute Case, Disability, and Rehabilitation Related Prevention Research, Program Announcement #02121; Correction

SUMMARY: This notice was published in the **Federal Register** on July 8, 2002, Volume 67, Number 130, Pages 45123-45124. The meeting times have been revised. In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), the Centers for Disease Control and Prevention (CDC) announces the following meeting:

Name: Disease, Disability, and Injury Prevention and Control Special Emphasis Panel (SEP): New Investigator Awards for Unintentional, Violence, and Acute Case, Disability, and Rehabilitation Related Prevention Research, Program Announcement #02121.

Action: The meeting times have been revised as follows:

Times and Dates: 6:30 p.m.-7 p.m., July 28, 2002 (Open), 7 p.m.-9:30 p.m., July 28, 2002 (Closed), 9 a.m.-5 p.m., July 29, 2002 (Closed).

Place: The Westin Hotel (Atlanta Airport) 4736 Best Road, Atlanta, GA 30337 Phone: (404) 762-7676.

Status: Portions of the meeting will be closed to the public in accordance with

provisions set forth in section 552b(c) (4) and (6), Title 5 U.S.C., and the Determination of the Director, Management Analysis and Services Office, CDC, pursuant to Public Law 92-463.

Matters To Be Discussed: The meeting will include the review, discussion, and evaluation of applications received in response to PA#02121.

Contact Person for More Information: Dr. Lynda Doll, Associate Director for Science, National Center for Injury Prevention and Control, CDC, 2939 Flowers Road, Atlanta, Georgia 30341; (770) 488-1430.

The Director, Management Analysis and Services Office has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee management activities, for both the Centers for Disease Control and Prevention and the Agency for Toxic Substances and Disease Registry.

Dated: July 12, 2002.

Joe Salter,

Acting Director, Management Analysis and Services Office, Centers for Disease Control and Prevention (CDC).
