I. Supplementary Information

Abstract

Research and monitoring findings are essential to fulfilling USGS's responsibility under the Earthquake Hazards Reduction Act to develop earthquake hazard assessments and recording and reporting earthquake activity nationwide. Residents, emergency responders, and engineers rely on the USGS for this accurate and scientifically sound information. Respondents to Program Announcements submit proposals to support research and monitoring related to earthquake hazard assessments, earthquake causes and effects, and earthquake monitoring. This information is used as the basis for selection and award of projects meeting the USGS's Earthquake Hazards Program objectives. Final reports of research and monitoring findings are required for each funded proposal; annual progress reports are required for awards of a two- to five-year duration. Final reports are made available to the public at the Web site <http://earthquake.usgs.gov/research/external/>.

II. Data

OMB Control Number: 1028–0051.

Title: Earthquake Hazards Program Research and Monitoring.

Type of Request: Extension of a currently approved collection.

Affected Public: Research scientists, engineers, and the general public.

Respondent Obligation: Required; necessary to receive benefits.

Frequency of Collection: Annually and once every three to five years.

Estimated Annual Number of and Description of Respondents: 250 Educational institutions, and profit and non-profit organizations.

Estimated Annual Number of Responses: 370 (250 applications and narratives and 120 annual and/or final reports).

Estimated Completion Time: 45 hours per application response and 9 hours per final report.

Estimated Annual Burden Hours: 12,330 (11,250 hours per application and 1,080 hours per annual and/or final report).

Estimated Annual Reporting and Recordkeeping "Hour" Burden: 12,330 hours. We estimate the public reporting burden will average 45 hours per application response. This includes time to develop project goals, write the statement of work, perform internal proposal reviews, and submit the proposal through grants.gov. We estimate the public reporting burden will average 9 hours per final or annual report response. This includes summarizing accomplishments for the past year's funded efforts.

Estimated Reporting and Recordkeeping "Non-Hour Cost" Burden: There are no "non-hour cost" burdens associated with this collection of information.

III. Request for Comments

On September 22, 2009, we published a **Federal Register** notice (74 FR 48281) soliciting comments announcing that we would submit this information to OMB for approval. We solicited comments for a period of 60 days, ending on November 23, 2009. We did not receive any comments concerning that notice.

We again invite comments concerning this ICR on: (1) Whether the proposed collection of information is necessary for the agency to perform its duties, including whether or not the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) ways to enhance the quality, usefulness, and clarity of the information to be collected; and (4) ways to minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask OMB in your comment to withhold your personal identifying information from public review, we cannot guarantee that it will be done.
