

Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: The New Source Performance Standards (NSPS) for Small Municipal Waste Combustors (40 CFR part 60, subpart AAAA) apply to both existing facilities and new facilities with small municipal waste combustors (MWCs) that combust greater than 35 tons per day (tpd), but with less than 250 tpd of municipal solid waste. In general, all NSPS standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NSPS.

Form Numbers: None.

Respondents/affected entities: Owners and operators of small municipal waste combustors.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart AAAA).

Estimated number of respondents: 6 (total).

Frequency of response: Annually, semiannually.

Total estimated burden: 18,700 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$2,180,000 (per year), which includes \$154,000 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: The increase in burden from the most-recently approved ICR is due to an adjustment. The adjustment increase in respondent burden from the most-recently approved ICR is due to an increase in the number of respondents. The number of respondents reflects one new facility over the past three years. There is an increase in the operation and maintenance (O&M) costs due to the increase in the number of respondents over the past three years. However, no additional respondents are predicted during the three-year period of this ICR.

Courtney Kerwin,

Director, Regulatory Support Division.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Emission Guidelines for Large Municipal Waste Combustors Constructed on or Before September 20, 1994 (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), Emission Guidelines for Large Municipal Waste Combustors Constructed on or Before September 20, 1994 (EPA ICR Number 1847.09, OMB Control Number 2060-0390), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through November 30, 2022. Public comments were previously requested, via the **Federal Register**, on April 8, 2022 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before December 27, 2022.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OAR-2022-0018, online using <https://www.regulations.gov/> (our preferred method); or by email to: docket@epa.gov; or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the

proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Muntasir Ali, Sector Policies and Program Division (D243-05), Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina, 27711; telephone number: (919) 541-0833; email address: ali.muntasir@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at <https://www.regulations.gov>, or in person, at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <https://www.epa.gov/dockets>.

Abstract: The Emission Guidelines for Large Municipal Waste Combustors at 40 CFR part 60, subpart Cb apply to existing facilities constructed on or before September 20, 1994 that own and operate municipal waste combustion (MWC) units with a combustion capacity greater than 250 tons per day of municipal solid waste (large MWC units). In general, all Emission Guidelines standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to Emission Guidelines.

Form Numbers: None.

Respondents/affected entities: Owners and operators of large municipal waste combustors constructed on or before September 20, 1994.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart Cb).

Estimated number of respondents: 72 (total).

Frequency of response: Initially, occasionally, semiannually, and annually.

Total estimated burden: 353,000 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$60,700,000 (per year), which includes \$1,400,000 in annualized capital/startup and/or operation & maintenance costs.

Changes in the estimates: The decrease in burden from the most-recently approved ICR is due to an adjustment(s). There is an adjustment decrease in the total estimated burden as currently identified in the OMB Inventory of Approved Burdens. This decrease in labor hours is not due to any program changes. Instead, the decrease is due to a decrease in the number of respondents to reflect facility closures, corrections to the burden associated with familiarization with regulatory requirements for existing sources, and corrections to the number of facilities performing dioxin/furan testing based on the current number of respondents. There is a decrease in the operation and maintenance (O&M) costs due to the decrease in the number of respondents over the past three years.

Courtney Kerwin,

Director, Regulatory Support Division.
