

administrative review authority regarding official personnel records in the Military Departments. The information collected is needed to provide the BCM/NR the basic data to process and act on the Respondent's request. The Respondent applies to the respective BCM/NR, which uses the DD Form 149, "Application for Correction of Military Record under the Provisions of Title 10, U.S. Code, Section 1552," as the collection instrument. The form is formatted in both electronic and paper format with text or hand-written fillable entries. The information from the DD Form 149 is used by the respective BCM/NR in processing the respondent's request pursuant to 10 U.S.C. 1552. The DD Form 149 was developed to standardize application to the BCM/NR. This information is used to identify and secure the appropriate official military and medical records from the records storage facilities. Information on the form is also used to determine status, to allow respondents to designate counsel of choice, to identify the issues involved, and to determine if the request was filed within the three-year statute of limitations established by Congress (10 U.S.C. 1552). The request is initiated by the Respondent; therefore, there is no preemptory request or invitation sent to the Respondent associated with the information collection. The information collected from the DD Form 149 is used by the respective BCM/NR to determine if an error or injustice has occurred in an individual's military record and, if applicable, the BCM/NR will promulgate a correction based on error, injustice, or clemency.
