SUPPLEMENTARY INFORMATION: TSA published a **Federal Register** notice, with a 60-day comment period soliciting comments, of the following collection of information on December 5, 2024 (89 FR 96660). TSA received no comments on the notice.

Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation will be available at <https://www.reginfo.gov> upon its submission to OMB. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency’s estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

Type of Request: Extension.

OMB Control Number: 1652–0058.

Form(s): NA.

Affected Public: Individuals, Households, Businesses, Organizations, and State, Local or Tribal Governments.

Abstract: The information collection activity provides a means to gather qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Executive Order 12862 commitment to improving service delivery.

This collection will allow for ongoing, collaborative, and actionable communications between TSA and its customers and stakeholders. TSA believes qualitative feedback from customers and stakeholders provides useful insights on their perceptions, experiences, opinions, and expectations regarding TSA products or services, provides TSA with an early warning of issues with service, and focuses attention on areas where changes regarding communication, training, or operations might improve delivery of products or services.

The solicitation of feedback will target areas such as: timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses will be assessed to plan and inform efforts to improve or maintain the quality of service offered by TSA. If this information is not collected, vital feedback from customers and stakeholders on TSA’s services will be unavailable.

As a general matter, this information collection will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature. Information gathered is intended to be used solely within TSA general service improvement and program management purposes and is not intended for release outside of TSA (if released, TSA will indicate the qualitative nature of the information). Feedback collected under this generic clearance provides useful qualitative information, but it does not yield data that can be generalized to the overall population. Qualitative information is not designed or expected to yield statistically reliable or actionable results; it will not be used for quantitative information collections. Depending on the degree of influence the results are likely to have, there may be future information collection submissions for other generic mechanisms that are designed to yield quantitative results.

Below we provide TSA’s projected average estimates for the next 3 years:

Estimated Number of Annual Respondents: 7,094,500.

Estimated Annual Burden Hours: 1,180,050.

Dated: June 30, 2025 .

Paperwork Reduction Act Officer,
Information Technology, Transportation

Background

Under the authority of the Federal Advisory Committee Act (5 U.S.C. The Council’s purpose is to

provide recommendations to the Federal Government, through the Secretary of the Interior and the Secretary of Agriculture, regarding policies and endeavors that (a) benefit wildlife resources; (b) encourage partnership among the public, sporting conservation organizations, and Federal, State, Tribal, and territorial governments; and (c) benefit fair-chase recreational hunting and safe recreational shooting sports.

Meeting Agenda

Among other business to be addressed by the Council, the meeting will include comments from new leadership team members at both the Department of the Interior and Department of Agriculture, an update from U.S. Fish and Wildlife Service staff on continued implementation of its initiative to incentivize the use of lead-free ammunition on the lands of the National Wildlife Refuge System and other refuge-related issues, and an update on Department of Agriculture issues.
