SUPPLEMENTARY INFORMATION: Notice of this meeting is given under the authority of the Federal Advisory Committee Act, Title 5 U.S.C., ch. 10. The COAC provides advice to the Secretary of the Department of Homeland Security, the Secretary of the Department of the Treasury, and the Commissioner of U.S. Customs and Border Protection (CBP) on matters pertaining to the commercial operations of CBP and related functions within the Department of Homeland Security and the Department of the Treasury.

The COAC is committed to ensuring all participants have equal access regardless of disability status. If you require a reasonable accommodation due to a disability to fully participate,

please contact Mrs. Latoria Martin at (202) 344-1440 as soon as possible.

Please feel free to share this information with other interested members of your organization or association.

To facilitate public participation, we are inviting public comments on the issues the committee will consider prior to the formulation of recommendations as listed in the Agenda section below.

There will be a public comment period after each subcommittee update during the meeting on June 18, 2025. During the meeting, comments may be submitted via the trade events mailbox at tradeevents@cbp.dhs.gov or through the Microsoft Teams chat feature. Please note the public comment period for speakers may end before the time indicated on the schedule that is posted on the CBP web page: <http://www.cbp.gov/trade/stakeholder-engagement/coac>.

Agenda

The COAC will hear from the current subcommittees on the topics listed below:

1. The Intelligent Enforcement Subcommittee will provide updates on the work completed and topics discussed in its working groups. The Antidumping/Countervailing Duty (AD/CVD) Working Group will provide updates regarding its work and discussions on importer compliance with AD/CVD and other trade remedy measures and requirements. The Intellectual Property Rights (IPR) Process Modernization Working Group will provide updates concerning progress associated with its proposed recommendations specific to IPR enforcement and facilitation. The Forced Labor Working Group (FLWG) will submit proposed recommendations for the committee's consideration and provide updates on continued discussions regarding trade outreach and clarification of requirements. In particular, the FLWG anticipates providing proposed recommendations regarding suggested updates to the "Uyghur Forced Labor Prevention Act (UFLPA) U.S. Customs and Border Protection Operational Guidance for Importers."

2. The Next Generation Facilitation Subcommittee will provide updates on all of its working groups. The Automated Commercial Environment (ACE) Modernization (formerly ACE 2.0) Working Group will report on its discussions about trade priorities. The Broker Modernization Working Group (BMWG) remains focused on the enhancement of the end user experience and improving the administration of the

Customs Broker License Exam (CBLE) and will provide updates. This quarter, the Modernized Entry Processes Working Group (MEPWG) continued its National Customs Automation Program (NCAP) discussions and will provide updates on its efforts concerning the reconciliation test. The MEPWG will also discuss areas where CBP could provide further guidance on the Broker Cybersecurity Incident Procedures in the form of Frequently Asked Questions. The Customs Interagency Industry Working Group (CIIWG) will discuss its resubmission, with supporting ACE records, of previous examples it provided to CBP of duplicative data elements scenarios currently required in ACE. The CIIWG also anticipates providing updates on the Global Business Identifier (GBI) program.

3. The Secure Trade Lanes Subcommittee will provide updates on five of its seven active working groups. The Export Modernization Working Group has met two times this quarter. The March meeting was a kickoff for 2025 to establish action items and priorities after the closure of the public comment period for the Rail Export notice of proposed rulemaking (NPRM). The April meeting focused on defining Progressive Filing and reviewing the finalized flowchart for Air Mode. The working group tasked members with another review of the previously submitted recommendations to identify any additions or revisions that may be needed. The Drawback Task Force has met twice this quarter and, in particular, continues its work on the list related to the error validations and the updates of the transmission codes for the ACE Document Image System (DIS). There is the potential for proposed recommendations this quarter regarding updates to the error dictionary, but more conversation is needed prior to presenting proposed recommendations to the full committee. The De Minimis Working Group met two times this past quarter. In these meetings, the discussion centered mostly around CBP's enforcement of the \$800 limit per person per day and ACE processing of de minimis shipments per Executive Order 14256 (90 FR 14899, April 7, 2025). The De Minimis Working Group does not have any proposed recommendations for this public meeting. The Centers Working Group continues to evaluate its previously proposed recommendations and will determine whether any additional proposed recommendations may come from that review or from new topics that are discussed within the working group. The FTZ/Warehouse Working Group

has completed its initial review of the foreign trade zone (FTZ) regulations (19 CFR part 146) and is continuing to review several sections of the regulations in particular. When the working group completes its review of the FTZ regulations, it intends to submit proposed recommendations for updates and changes to the regulations for the full committee's consideration; the working group will also review the bonded warehouse regulations, FTZ manual, and the Bonded Warehouse Manual. The Cross-Border Recognition Working Group has not met this quarter and remains on hiatus. The Trade Partnership and Engagement Working Group is focusing efforts on reviewing an updated handbook for Customs Trade Partnership Against Terrorism (CTPAT) Trade Compliance Program members as well as a review of the CTPAT Minimum Security Criteria to drive efficiency and eliminate redundancies in the program. The Pipeline Working Group did not meet this quarter and will not have any proposed recommendations at the upcoming meeting.

Meeting materials will be available on June 9, 2025, at: <http://www.cbp.gov/trade/stakeholder-engagement/coac/coac-public-meetings>.

Lisa Beth M. Brown,

Acting Executive Director, Office of Trade Relations.

BILLING CODE 9111-14-P

DEPARTMENT OF HOMELAND SECURITY

Office of the Secretary

Determination Pursuant to Section 102 of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996, as Amended

AGENCY: Office of the Secretary, Department of Homeland Security.

ACTION: Notice of determination.

SUMMARY: The Secretary of Homeland Security has determined, pursuant to law, that it is necessary to waive certain laws, regulations, and other legal requirements in order to ensure the expeditious construction of barriers and roads in the vicinity of the international land border in the state of Arizona.

DATES: This determination takes effect on June 5, 2025.

SUPPLEMENTARY INFORMATION: Important mission requirements of the Department of Homeland Security ("DHS") include border security and the detection and prevention of illegal entry into the

United States. Border security is critical to the nation's national security. Recognizing the critical importance of border security, Congress has mandated DHS to achieve and maintain operational control of the international land border. Secure Fence Act of 2006, Public Law 109-367, section 2, 120 Stat. 2638 (Oct. 26, 2006) (8 U.S.C. 1701 note). Congress defined "operational control" as the prevention of all unlawful entries into the United States, including entries by terrorists, other unlawful aliens, instruments of terrorism, narcotics, and other contraband. *Id.* Consistent with that mandate, the President's Executive Order on Securing Our Borders directs that I take all appropriate action to deploy and construct physical barriers to ensure complete operational control of the southern border of the United States. Executive Order 14165, section 3 (Jan. 20, 2025).

Congress has provided to the Secretary of Homeland Security a number of authorities necessary to carry out DHS's border security mission. One of those authorities is found at section 102 of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996, as amended ("IIRIRA"). Public Law 104-208, Div. C, 110 Stat. 3009-546, 3009-554 (Sept. 30, 1996) (8 U.S.C. 1103 note), as amended by the REAL ID Act of 2005, Public Law 109-13, Div. B, 119 Stat. 231, 302, 306 (May 11, 2005) (8 U.S.C. 1103 note), as amended by the Secure Fence Act of 2006, Public Law 109-367, section 3, 120 Stat. 2638 (Oct. 26, 2006) (8 U.S.C. 1103 note), as amended by the Department of Homeland Security Appropriations Act, 2008, Public Law 110-161, Div. E, Title V, section 564, 121 Stat. 2090 (Dec. 26, 2007). In section 102(a) of IIRIRA, Congress provided that the Secretary of Homeland Security shall take such actions as may be necessary to install additional physical barriers and roads (including the removal of obstacles to detection of illegal entrants) in the vicinity of the United States border to deter illegal crossings in areas of high illegal entry into the United States. In section 102(b) of IIRIRA, Congress mandated the installation of additional fencing, barriers, roads, lighting, cameras, and sensors on the southwest border. Finally, in section 102(c) of IIRIRA, Congress granted to the Secretary of Homeland Security the authority to waive all legal requirements that I, in my sole discretion, determine necessary to ensure the expeditious construction of barriers and roads authorized by section 102 of IIRIRA.

Determination and Waiver

Section 1

The United States Border Patrol Tucson Sector is an area of high illegal entry. In fiscal year 2024, the United States Border Patrol ("Border Patrol") apprehended over 463,000 illegal aliens attempting to enter the United States between border crossings in the Tucson Sector. In that same time period, Border Patrol seized over 473 pounds of marijuana, 70 pounds of cocaine, three pounds of heroin, over 550 pounds of methamphetamine, and 1,130 pounds of fentanyl.

Owing to the high levels of illegal entry within the Tucson Sector, I must use my authority under section 102 of IIRIRA to install additional barriers and roads in the Tucson Sector. Therefore, DHS will take immediate action to construct additional barriers and roads in segments of the border in the Tucson Sector. The segments where such construction will occur are referred to herein as the "project area," which is more specifically described in Section 2 below.

Section 2

I determine that the following area in the vicinity of the United States border, located in the State of Arizona within the U. S. Border Patrol Tucson Sector, is an area of high illegal entry (the "project area"):

- Starting approximately one (1.0) mile west of Border Monument 121 and extending east along the border to Border Monument 117; and
- Starting at Border Monument 99 and extending west along the border for approximately thirty-three and four tenths (33.4) miles.

There is presently an acute and immediate need to construct additional physical barriers and roads in the vicinity of the border of the United States in order to prevent unlawful entries into the United States in the project area pursuant to section 102(a) of IIRIRA. In order to ensure the expeditious construction of additional physical barriers and roads in the project area, I have determined that it is necessary that I exercise the authority that is vested in me by section 102(c) of IIRIRA.

Accordingly, pursuant to section 102(c) of IIRIRA, I hereby waive in their entirety, with respect to the construction of physical barriers and roads (including, but not limited to, accessing the project areas, creating and using staging areas, the conduct of earthwork, excavation, fill, and site preparation, drainage and erosion control, and installation and upkeep of
