BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Food and Drug Administration**

[Docket No. FDA-2014-N-1287]

Announcement of Requirements and Registration for the 2014 Food and Drug Administration Food Safety Challenge

Authority: 15 U.S.C. 3719.

AGENCY: Food and Drug Administration, HHS.

Award Approving Official: Erik Mettler, Deputy Associate Commissioner, Food and Drug Administration/Office of Foods and Veterinary Medicine.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing the 2014 FDA Food Safety Challenge, a prize competition under the America COMPETES Reauthorization Act of 2010. The 2014 FDA Food Safety Challenge is an effort to advance breakthroughs in foodborne pathogen detection, specifically with the goal of accelerating the detection of *Salmonella* in fresh produce. As FDA's food safety program incorporates preventive control measures through the implementation of

the FDA Food Safety Modernization Act, quicker detection of these harmful bacteria will help to prevent foodborne illnesses.

DATES:

1. Phase I submission period: September 23 to November 9, 2014.

2. Phase II judging of submissions and selection of finalists: November 10, 2014, to January 6, 2015.

3. Phase III field accelerator, inclusive of finalist mentorship, boot camp, and demo day: January 8 to March 5, 2015.

4. Phase IV final judging: March 5 to March 11, 2015.

5. Winner(s) announced: March 12, 2015.

FOR FURTHER INFORMATION CONTACT:

Chad P. Nelson, Office of Foods and Veterinary Medicine, Food and Drug Administration, 10903 New Hampshire Ave., Silver Spring, MD 20993, 301-796-4643.

SUPPLEMENTARY INFORMATION:**I. Background**

While the American food supply is among the safest in the world, the Centers for Disease Control and Prevention (CDC) estimates that 1 in 6 Americans is sickened by foodborne illness annually, resulting in about 3,000 deaths each year. It is estimated that the overall negative economic impact of foodborne illness in the United States, including medical costs, quality-of-life losses, lost productivity, and lost-life expectancy, may be as high as \$77 billion per year. *Salmonella* represents the leading cause of deaths and of hospitalizations related to foodborne illness. Contaminated produce is responsible for nearly half of foodborne illnesses and almost a quarter of foodborne-related deaths.

The 2014 FDA Food Safety Challenge is a call to scientists, academics, entrepreneurs, and innovators from all disciplines to submit concepts applying novel and/or advanced methodologies to foster revolutionary improvements in foodborne pathogen detection.
