#### Partial Removal of Direct Final Rule Revising the California State Implementation Plan, Yolo-Solano Air Quality Management District

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Partial removal of direct final rule.

**SUMMARY:** On February 1, 2006 (71 FR 5172), EPA published a direct final approval of a revision to the California State Implementation Plan (SIP). This revision concerned Yolo-Solano Air Quality Management District (YSAQMD) Rule 2.21, Organic Liquid Storage and Transfer. The direct final action was published without prior proposal because EPA anticipated no adverse comment. The direct final rule stated that if adverse comments were received by March 3, 2006, EPA would publish a timely withdrawal in the **Federal Register**. EPA received timely adverse comments. Consequently, with this action we are removing the direct final approval of YSAQMD rule 2.21. EPA will either address the comments in a subsequent final action based on the parallel proposal also published on February 1, 2006 (71 FR 5211), or propose an alternative action. As stated in the parallel proposal, EPA will not institute a second comment period on a subsequent final action.

On February 1, 2006 (71 FR 5174), EPA also published an interim final determination to stay CAA section 179 sanctions associated with YSAQMD Rule 2.21 based on our concurrent proposal to approve the State's SIP revision as correcting deficiencies that initiated sanctions. This interim final determination and its stay of sanctions is not affected by this partial removal of the direct final action.

Ventura County Air Pollution Control District Rule 74.14, the other rule approved in the February 1, 2006 direct final action, is not affected by this partial removal and is incorporated into the SIP as of the effective date of the February 1, 2006 direct final action.

**DATES:** This action is effective April 11, 2006.

**ADDRESSES:** EPA has established docket number EPA-R09-OAR-2005-0557 for this action. #### Protection of Stratospheric Ozone: Recordkeeping and Reporting Requirements for the Import of Halon-1301 Aircraft Fire Extinguishing Vessels

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Direct final rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is taking direct final action to exempt entities that import aircraft fire extinguishing spherical pressure vessels containing halon-1301 ("aircraft halon bottles") for hydrostatic testing from the import petitioning requirements for used controlled substances. The petitioning requirements compel importers to submit detailed information to the Administrator concerning the origins of the substance at least forty working days before a shipment is to leave a foreign port of export. This direct final rule reduces the administrative burden on entities that are importing aircraft halon bottles for the purpose of maintaining these bottles to commercial safety specifications and standards set forth in Federal Aviation Administration airworthiness directives. This direct final rule does not exempt entities that wish to import bulk quantities of halon-1301 in containers that are not being imported for purposes of hydrostatic testing.

**DATES:** The direct final rule is effective on June 12, 2006 without further notice, unless EPA receives adverse comments by May 11, 2006, or by May 26, 2006 if a hearing is requested. If adverse comments are received, EPA will publish a timely withdrawal in the **Federal Register** informing the public that this rule will not take effect. If anyone contacts the EPA requesting to speak at a public hearing by April 21, 2006, a public hearing will be held on April 25, 2006.
