

2002, Public Law 107–198, see 44 U.S.C. 3506(c)(4), the FCC seeks specific comment on how it might “further reduce the information collection burden for small business concerns with fewer than 25 employees.”

Annual Cost Burden: \$961,800.

Needs and Uses: The Spectrum Act directed the Commission to hold a “reverse auction” in which broadcasters can voluntarily return some or all of their broadcast spectrum usage rights in exchange for incentive payments. The Spectrum Act also required the Commission to reorganize the broadcast television band, which will be accomplished by repacking stations, or moving broadcast stations to different channels. The Spectrum Act directed the Commission to hold a forward auction of the ultra-high frequency (UHF) spectrum obtained as a result of the reverse auction and channel repacking. This UHF spectrum was auctioned as flexible-use licenses suitable for providing mobile broadband service. Broadcast stations that participated in the forward auction were able to relinquish their spectrum rights, agree to share a channel with another broadcaster or move from the UHF to VHF band or from a high VHF channel to a low VHF channel. For non-participating broadcast stations, the Spectrum Act established a TV Broadcaster Relocation Fund (Fund) to reimburse reassigned broadcasters and multichannel video programming distributors (MVPDs) that incur expenses associated with continuing to carry relocated stations, for their reasonable expenses resulting from the post-auction channel reassignment. The

Commission adopted rules implementing the provisions of the Spectrum Act. The Incentive Auction concluded and repack process commented in April 2017. The rules governing the post-incentive auction licensing and other post-auction station-related matters are codified at 47 CFR parts 0, 1, 27, 73 and 74.

On September 19, 2023, the Commission released a Report and Order, FCC 23–72, wherein it adopted several revisions to its Part 73 rules including 73.3700. As a result of these rule revisions, a number of collections and burdens were either revised or eliminated altogether as reflected in this revised supporting statement. Sections 73.3700(b)(4)(i) and (ii) and 73.3700(d) of the rules were eliminated and therefore the corresponding collections and burdens for these rules have been eliminated. Also, revisions were made to estimates for 73.3700(c), 73.3700(g)(4) and 73.3700 (h)(5) and (h)(6) to reflected updated data now that the incentive auction is complete and the exact universe of affected entities is known.

Total Annual Cost: \$348,000.

Needs and Uses: On December 21, 2001, the Commission released the *2001 TRS Cost Recovery Order*, document FCC 01–371, published at 67 FR 4203, January 29, 2002, in which the Commission, among other things:

(1) required internet-based TRS providers to submit certain projected TRS-related cost and demand data to the TRS Fund administrator to be used to calculate the rate; and

(2) directed the TRS Fund administrator to expand its data collection forms accordingly.

In 2003, the Commission released the *2003 Second Improved TRS Order*, published at 68 FR 50973, August 25, 2003, which among other things required that TRS providers offer certain local exchange carrier (LEC)-based improved services and features where technologically feasible, including a speed dialing requirement which may entail voluntary recordkeeping for TRS providers to maintain a list of telephone numbers. *See also* 47 CFR 64.604(a)(3)(vi)(B).

In 2007, the Commission released the *Section 225/255 VoIP Report and Order*, published at 72 FR 43546, August 6, 2007, extending the disability access requirements that apply to telecommunications service providers and equipment manufacturers under 47 U.S.C. 225, 255 to interconnected voice over internet protocol (VoIP) service providers and equipment manufacturers. As a result, under rules implementing section 225 of the Act, interconnected VoIP service providers are required to publicize information about telecommunications relay services (TRS) and 711 abbreviated dialing access to TRS. *See also* 47 CFR 64.604(c)(3).

In 2007, the Commission also released the *2007 Cost Recovery Report and Order and Declaratory Ruling*, published at 73 FR 3197, January 17, 2008, in which the Commission:

(1) adopted a new cost recovery methodology for interstate traditional TRS, interstate speech-to-speech service (STS), captioned telephone service (CTS), and internet Protocol captioned telephone service (IP CTS) based on the Multi-state Average Rate Structure (MARS) plan, under which interstate TRS compensation rates are determined by weighted average of the states' intrastate compensation rates, and which includes for STS additional compensation approved by the Commission for STS outreach;

(2) adopted a cost recovery methodology for internet Protocol (IP) Relay based on a price cap like methodology;

(3) adopted a cost recovery methodology for video relay service (VRS) that adopted tiered rates based on call volume;

(4) clarified the nature and extent that certain categories of costs are compensable from the Fund; and

(5) addressed certain issues concerning the management and oversight of the Fund, including prohibiting financial incentives offered to consumers to make relay calls.

The *2007 TRS Cost Recovery Order* requires that state relay administrators and TRS providers submit to the TRS Fund administrator the following information annually, for intrastate traditional TRS, STS, and CTS:

(1) the per-minute compensation rate(s) and other compensation received for the provision of TRS;

(2) whether the rate applies to session minutes or conversation minutes, which are a subset of session minutes;

(3) the number of intrastate session minutes; and

(4) the number of intrastate conversation minutes.

Also, STS providers must file a report annually with the TRS Fund administrator and the Commission on their specific outreach efforts directly attributable to the additional compensation approved by the Commission for STS outreach.

In 2011, to help prevent waste, fraud, and abuse, the Commission adopted three VRS orders to curtail these harmful practices. Each of these orders (collectively, the *2011 VRS Orders*) included information collection requirements.

On April 6, 2011, in document FCC 11–54, the Commission released the *2011 Fraud Prevention Order*, published at 76 FR 30841, May 27, 2011, which included several measures designed to eliminate the waste, fraud and abuse, while ensuring that VRS remains a viable and a valuable communication tool for Americans who use it on a daily basis.

On July 28, 2011, in document FCC 11–118 the Commission released the *VRS Certification Order*, published at 76 FR 47469, August 5, 2011, amending its rules for certifying internet-based TRS providers as eligible for payment from the Interstate TRS Fund (Fund) for their provision of internet-based TRS.

On October 17, 2011, in document FCC 11–155, the Commission released the *Second VRS Certification Order*, published at 76 FR 67070, October 31, 2011, addressing three petitions related to the *VRS Certification Order* by revising the burdens contained in the requirements for the submission of documentation of a provider's VRS

equipment and technologies and the submission of documentation regarding sponsorship arrangements.

The following are the final information collection requirements contained in the *2011 VRS Orders*:

(1) The Chief Executive Officer (CEO), Chief Financial Officer (CFO), or other senior executive of a TRS provider shall certify, under penalty of perjury, that: (1) minutes submitted to the Interstate TRS Fund (Fund) administrator for compensation were handled in compliance with the Commission's rules and are not the result of impermissible financial incentives to generate calls, and (2) cost and demand data submitted to the Fund administrator related to the determination of compensation rates are true and correct.

(2) VRS providers shall: (a) submit to the Commission and the TRS Fund administrator a call center report twice a year and (b) notify the Commission and the TRS Fund administrator at least 30 days prior to any change to their call centers' locations.

(3) VRS providers shall submit detailed call data records (CDRs) and speed of answer compliance data to the Fund administrator.

(4) TRS providers shall use an automated record keeping system to capture the CDRs and shall submit such data electronically in standardized form to the TRS Fund administrator.

(5) internet-based TRS providers shall retain the CDRs that are used to support payment claims submitted to the Fund administrator for a minimum of five years, in an electronic format.

(6) VRS providers shall: (a) maintain copies of all third-party contracts or agreements and make them available to the Commission and the TRS Fund administrator upon request; and (b) describe all agreements in connection with marketing and outreach activities in their annual submissions to the TRS Fund administrator.

(7) TRS providers shall provide information about their TRS whistleblower protections to all employees and contractors, in writing.

In 2018, the Commission released the *IP CTS Modernization Order*, published at 83 FR 30082, June 27, 2018, in which the Commission:

(1) determined that it would transition the methodology for IP CTS cost recovery from the MARS plan to cost-based rates and adopted interim rates; and

(2) added two cost reporting requirements for IP CTS providers: (i) In annual cost data filings and supplementary information provided to the TRS Fund administrator, IP CTS

providers that contract for the supply of services used in the provision of TRS, shall include information about payments under such contracts, classified according to the substantive cost categories specified by the TRS Fund administrator; and (ii) in the course of an audit or otherwise upon demand, IP CTS providers must make available any relevant documentation. 47 CFR 64.604(c)(5)(iii)(D)(1), (6).

In December 2023, the FCC released the *2023 VRS Improvements Order*, document FCC 23–116, published at 89 FR 20125, March 21, 2024, amending its rules (1) increase from 50% to 80% the portion of monthly VRS minutes that may be handled by communications assistants (CAs) working at home; (2) modify the amount of prior interpreting experience required of VRS CAs who work at home; and (3) allow VRS providers to use contract CAs, subject to conditions, for up to 30% of their monthly call minutes. 47 CFR 64.604(c)(5)(iii)(D)(8), (d)(1)(iii)(C), (d)(2)(iv). The Commission also modified when VRS providers may seek compensation for VRS calls that originate from international IP addresses from users traveling abroad. 47 CFR 64.604(d)(6).
