SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–95381; File No. SR–BOX–2022–22]

Self-Regulatory Organizations; BOX Exchange LLC; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend BOX Rule IM–5050–11

July 28, 2022.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b–4 thereunder,² notice is hereby given that on July 18, 2022, BOX Exchange LLC (the “Exchange”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend BOX Rule IM–5050–11 to account for conflicts between different provisions within the Short Term Option Series Rules. The text of the proposed rule change is available from the principal office of the Exchange, at the Commission's Public Reference Room and also on the Exchange's internet website at <http://boxoptions.com>.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend Rule IM–5050–11 to account for conflicts between different provisions

within the Short Term Option Series Rules. The Exchange notes that this filing is based on a proposal recently submitted by Nasdaq ISE LLC (“Nasdaq ISE”) and approved by the Commission.³

In 2021, BOX amended Rule 5050 to limit the intervals between strikes in equity options listed as part of the Short Term Option Series Program, excluding Exchange-Traded Fund Shares and ETNs, that have an expiration date more than twenty-one days from the listing date (“Strike Interval Proposal”).⁴ The Strike Interval Proposal adopted a new IM–5050–11 which included a table that intended to specify the applicable strike intervals that would supersede IM–5050–6(b)(5)⁵ for Short Term Option Series in equity options, excluding Exchange-Traded Fund Shares and ETNs, which have an expiration date more than twenty-one days from the listing date. The Strike Interval Proposal was designed to reduce the density of strike intervals that would be listed in later weeks, within the Short Term Option Series Program, by utilizing limitations for intervals between strikes which have an expiration date more than twenty-one days from the listing date.

At this time, the Exchange proposes to amend the rule text within IM–5050–11 to clarify the current rule text and amend the application of the table to account for potential conflicts within the Short Term Option Series Rules. Currently, the table within IM–5050–11 is as follows:⁶

³ See Securities Exchange Act Release No. 95085 (June 10, 2022), 87 FR 36353 (June 16, 2022) (Order Approving a Proposed Rule Change, as Modified by Amendment No. 1, To Amend ISE Options 4, Section 5, Series of Options Contracts Open for Trading) (SR–ISE–2022–10).

⁴ See Securities Exchange Act Release No. 92072 (May 28, 2021), 86 FR 29856 (June 3, 2021) (SR–BOX–2021–12).

⁵ The interval between strike prices on Short Term Option Series may be (i) \$0.50 or greater where the strike price is less than \$100, and \$1 or greater where the strike price is between \$100 and \$150 for all option classes that participate in the Short Term Options Series Program; (ii) \$0.50 for option classes that trade in one dollar increments in Related non-short Term Options and are in the Short Term Option Series Program; or (iii) \$2.50 or greater where the strike price is above \$150. During the month prior to expiration of an option class that is selected for the Short Term Option Series Program pursuant to this rule (Short Term Option), the strike price intervals for the related non-Short Term Option shall be the same as the strike price intervals for the Short Term Option. BOX Rule IM–5050–6(b)(5).

⁶ The Share Price would be the closing price on the primary market on the last day of the calendar quarter and the Average Daily Volume would be the total number of options contracts traded in a given security for the applicable calendar quarter divided by the number of trading days in the applicable calendar quarter. The Average Daily Volume would
