SUPPLEMENTARY INFORMATION:

I. Background: The information collection is required by the Wagner-Peyser Act codified at 20 CFR part 653, which cover the requirements for the acceptance and handling of intrastate and interstate job clearance orders seeking workers to perform agricultural or food processing work on a less than year round basis. Section 653.501 states, in pertinent part, that employers must assure that the “wages and working conditions are not less than the prevailing wages and working conditions among similarly employed agricultural workers in the area of intended employment or the applicable Federal or State minimum wage, whichever is higher.” Also, regulations for the temporary employment of alien agricultural workers in the United States, (20 CFR, part 655, subpart B) promulgated under section 218 of the Immigration and Nationality Act (INA) as amended, require employers to pay the workers “at least the adverse effect wage rate in effect at the time the work is performed, the prevailing hourly wage rate, or the legal federal or State minimum wage rate, whichever is highest.” The vehicle for establishing the prevailing wage rate is ETA Form 232, *The Domestic Agricultural In-Season Wage Report*. This Report contains the prevailing wage finding based on data collected by the States from employers in a specific crop area using the ETA Form 232-A.

II. Review Focus: The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
 - Enhance the quality, utility, and clarity of the information to be collected; and
 - Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions: In order to meet its statutory responsibilities under the INA, the Department needs to extend an existing collection of information pertaining to wage rates for various crop activities.
