

sufficiently to meet the applicable NRTL requirements.

OSHA staff also performed an audit of the TUVRNA Austin site on August 23–25, 2010. The auditors found some non-conformances with the requirements of 29 CFR 1910.7. TUVRNA addressed these issues sufficiently to meet the applicable NRTL requirements. This preliminary finding does not constitute an interim or temporary approval of the application for renewal.

OSHA welcomes public comment as to whether TUVRNA meets the requirements of 29 CFR 1910.7 for renewal of their recognition as an NRTL. Comments should consist of pertinent written documents and exhibits. Commenters needing more time to comment must submit a request in writing, stating the reasons for the request. OSHA must receive the written request for an extension by the due date for comments. OSHA will limit any extension to 30 days unless the requester justifies a longer period. OSHA may deny a request for an extension if it is not adequately justified. To obtain or review copies of the publicly available information in TUVRNA's application and other pertinent documents (including exhibits), as well as all submitted comments, contact the Docket Office, Room N–2625, Occupational Safety and Health Administration, U.S. Department of Labor, at the above address; these materials also are available online at <http://www.regulations.gov> under Docket No. OSHA–2007–0042.

OSHA staff will review all comments to the docket submitted in a timely manner and, after addressing the issues raised by these comments, will recommend whether to grant TUVRNA's application for renewal. The Assistant Secretary will make the final decision on granting the application and, in making this decision, may undertake other proceedings prescribed in Appendix A to 29 CFR 1910.7. OSHA will publish a public notice of this final decision in the **Federal Register**.
