Fish and Wildlife Service

[Docket No. FWS-R4-ES-2022-0089; FXES11130400000-223-FF04EF4000]

Renewal of an Incidental Take Permit for Florida Key Deer and Other Protected Species on Big Pine Key and No Name Key, Monroe County, FL; Categorical Exclusion

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comment and information.

SUMMARY: We, the Fish and Wildlife Service, announce receipt of an application from Monroe County (applicant) for a renewal of incidental take permit (ITP) under the Endangered Species Act. If granted, the expiration date of the existing ITP, which authorizes take of the Florida Key deer, the Lower Keys marsh rabbit, and the eastern indigo snake incidental to commercial and residential construction in Monroe County, Florida, would be extended for an additional 3 years. The applicant is seeking an extension of the ITP expiration date from June 30, 2023, to June 30, 2026. The application for renewal does not include a request to increase the amount of take authorized by the ITP or to modify the covered activities under the ITP and the associated habitat conservation plan (HCP). We request public comment on the application, which includes the applicant's existing HCP and the Service's preliminary determination that this ITP renewal qualifies as "low-effect," categorically excluded, under the National Environmental Policy Act. To make this determination, we used our environmental action statement and low-effect screening form, both of which are also available for public review.

DATES: We must receive your written comments on or before August 15, 2022.

ADDRESSES:

Obtaining Documents: You may obtain copies of the documents online in Docket No. FWS-R4-ES-2022-0089 at <https://www.regulations.gov>.

Submitting Comments: If you wish to submit comments on any of the documents, you may do so in writing by one of the following methods:

Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: We, the Fish and Wildlife Service (Service), announce receipt of an application from Monroe County (applicant) for renewal of incidental take permit (ITP) TE083411-0 under the Endangered Species Act by extending the permit expiration date by 3 years. The ITP authorizes take of the Florida Key deer (*Odocoileus virginianus clavium*), the Lower Keys marsh rabbit (*Sylvilagus palustris hefneri*), and the eastern indigo snake (*Drymarchon corais couperi*), via destruction of these species' feeding, breeding, and sheltering habitat incidental to commercial and residential construction (covered activity). The renewal of the ITP would not change the amount of covered area, the covered activity, or the amount or type of take or the species covered by the HCP and permit. The applicant's mitigation for the incidental take of the species also would not change.

The requested extension will allow the term of the ITP to match the County's Rate of Growth Ordinance (ROGO) timeframe (*i.e.*, the timeframe for the County to issue building permits for new houses commensurate with the ability to safely evacuate the population in the event of a major storm). On January 22, 2020, the Monroe County Board of County Commissioners (BOCC) extended the timeframe for issuing the remaining building permits to match the ROGO for an additional 3 years, from 2023 to 2026, to provide the County additional time to distribute ROGO allocations while the new hurricane evacuation model is run. The extension also would allow the County to implement other strategies to help transition land into public ownership, reducing the potential for fifth amendment takings claims and addressing the overall future build-out of the Florida Keys.

We request public comment on the application, which includes the applicant's HCP and the Service's preliminary determination that renewal of the ITP qualifies as "low-effect," categorically excluded, under the National Environmental Policy Act

(NEPA; 42 U.S.C. 4321 *et seq.*). To make this determination, we used our environmental action statement and low-effect screening form, both of which are also available for public review.

Project

The applicant requests only to extend the ITP expiration date for 3 years, from June 30, 2023, to June 30, 2026, and does not seek any other modifications, including but not limited to alterations of the FWS's original and analyses of the initial ITP application.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, be aware that your entire comment, including your personal identifying information, may be made available to the public. While you may request that we withhold your personal identifying information, we cannot guarantee that we will be able to do so.

Our Preliminary Determination

The Service has made a preliminary determination that extending the expiration date of the ITP by three additional years would individually and cumulatively have a minor or negligible effect on the covered species and the environment. Therefore, we have preliminarily concluded that renewal of the ITP would qualify for categorical exclusion and that this action is low effect under our NEPA regulations at 43 CFR 46.205 and 46.210. A low-effect action is one that would result in (1) minor or negligible effects on federally listed, proposed, and candidate species and their habitats; (2) minor or negligible effects on other environmental values or resources; and (3) impacts that, when considered together with the impacts of other past, present, and reasonably foreseeable similarly situated projects, would not over time result in significant cumulative effects to environmental values or resources.

Next Steps

The Service will evaluate the application and the comments received to determine whether to renew the ITP by extending the expiration date. We will also conduct an intra-Service consultation pursuant to section 7 of the ESA to evaluate the effects of the requested renewal. After considering the above findings, we will determine whether the issuance criteria for ITP renewal in 50 CFR 13.22 have been met. If met, the Service will renew Monroe County, Florida's ITP number PER 0039939 by extending the expiration

date by 3 years (from June 30, 2023, to June 30, 2026). The ITP number has been updated to reflect the Service's new permit tracking system (ePermits).

Authority

The Service provides this notice under section 10(c) of the ESA (16 U.S.C. 1531 *et seq.*) and its implementing regulations (50 CFR 17.32) and NEPA (42 U.S.C. 4321 *et seq.*) and its implementing regulations (40 CFR 1506.6 and 43 CFR 46.305).

Foreign Endangered Species; Receipt of Permit Applications

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of permit applications; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service, invite the public to comment on applications to conduct certain activities with foreign species that are listed as endangered under the Endangered Species Act (ESA). With some exceptions, the ESA prohibits activities with listed species unless Federal authorization is issued that allows such activities. The ESA also requires that we invite public comment before issuing permits for any activity otherwise prohibited by the ESA with respect to any endangered species.

DATES: We must receive comments by August 15, 2022.

ADDRESSES:

Obtaining Documents: The applications, application supporting materials, and any comments and other materials that we receive will be available for public inspection at <https://www.regulations.gov> in Docket No. FWS-HQ-IA-2022-0053.

Submitting Comments: When submitting comments, please specify the name of the applicant and the permit number at the beginning of your comment. You may submit comments by one of the following methods:

SUPPLEMENTARY INFORMATION:

I. Public Comment Procedures

A. How do I comment on submitted applications?

We invite the public and local, State, Tribal, and Federal agencies to comment on these applications. Before issuing any of the requested permits, we will take into consideration any information that we receive during the public comment period.

You may submit your comments and materials by one of the methods in **ADDRESSES**. We will not consider comments sent by email or fax, or to an address not in **ADDRESSES**. We will not consider or include in our administrative record comments we receive after the close of the comment period (see **DATES**).

When submitting comments, please specify the name of the applicant and the permit number at the beginning of your comment. Provide sufficient information to allow us to authenticate any scientific or commercial data you include. The comments and recommendations that will be most useful and likely to influence agency decisions are: (1) Those supported by quantitative information or studies; and (2) those that include citations to, and analyses of, the applicable laws and regulations.

B. May I review comments submitted by others?

You may view and comment on others' public comments at <https://www.regulations.gov>, unless our allowing so would violate the Privacy Act (5 U.S.C. 552a) or Freedom of Information Act (5 U.S.C. 552).
