

allocate the in-quota quantity of a TRQ for any agricultural product among supplying countries or customs areas. The President delegated this authority to the U.S. Trade Representative under Presidential Proclamations 6763 (60 FR 1007) and 7235 (64 FR 55611).

On July 11, 2022, the Foreign Agricultural Service (FAS) of the U.S. Department of Agriculture announced sugar program provisions for FY 2023. FAS announced an in-quota quantity of the TRQ for raw cane sugar for FY 2023 of 1,117,195 metric tons raw value (MTRV) (conversion factor: 1 metric ton raw value = 1.10231125 short tons raw value), which is the minimum amount to which the United States is committed under the World Trade Organization (WTO) Agreement. The U.S. Trade Representative is allocating this quantity (1,117,195 MTRV) to the following countries in the amounts specified below:

Country	FY 2023 TRQ allocations (metric tons raw value)
Argentina	46,260
Australia	89,293
Barbados	7,531
Belize	11,834
Bolivia	8,606
Brazil	155,993
Colombia	25,819
Congo (Brazzaville)	7,258
Costa Rica	16,137
Cote d'Ivoire	7,258
Dominican Republic	189,343
Ecuador	11,834
El Salvador	27,971
Eswatini (Swaziland)	17,213
Fiji	9,682
Gabon	7,258
Guatemala	51,639
Guyana	12,910
Haiti	7,258
Honduras	10,758
India	8,606
Jamaica	11,834
Madagascar	7,258
Malawi	10,758
Mauritius	12,910
Mexico	7,258
Mozambique	13,986
Panama	31,199
Papua New Guinea	7,258
Paraguay	7,258
Peru	44,108
Philippines	145,235
South Africa	24,744
St. Kitts & Nevis	7,258
Taiwan	12,910
Thailand	15,061
Trinidad & Tobago	7,531
Uruguay	7,258
Zimbabwe	12,910

The allocations of the in-quota quantities of the raw cane sugar TRQ to countries that are net importers of sugar

are conditioned on receipt of the appropriate verifications of origin. Certificates of quota eligibility must accompany imports from any country for which an allocation has been provided.

With respect to the in-quota quantity of 64,709 metric tons (MT) of the TRQ for imports of certain sugar-containing products maintained under Additional U.S. Note 8 to Chapter 17 of the HTSUS, the U.S. Trade Representative is allocating 59,250 MT to Canada. The remainder of the in-quota quantity, 5,459 MT, is available for other countries on a first-come, first-served basis.

Raw cane sugar and sugar-containing products for FY 2023 TRQs may enter the United States as of October 1, 2022.

Greta Peisch,

General Counsel, Office of the United States Trade Representative.

BILLING CODE 3290-F2-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Notice of Receipt and Request for Review of Noise Compatibility Program

AGENCY: Federal Aviation Administration, DOT.

SUMMARY: The Federal Aviation Administration (FAA) announces that it is reviewing a proposed noise compatibility program that was submitted for Teterboro Airport by The Port Authority of New York and New Jersey. This program was submitted subsequent to a determination by FAA that associated noise exposure maps submitted for Teterboro Airport were in compliance with applicable requirements, effective June 15, 2017. The proposed noise compatibility program will be approved or disapproved on or before January 11, 2023. This notice also announces the availability of this noise compatibility program for public review and comment.

DATES: The effective date of start of FAA's review of the noise compatibility program is July 15, 2022. The public comment period ends September 13, 2022.

FOR FURTHER INFORMATION CONTACT:

Andrew Brooks, Regional Environmental Program Manager, Airports Division, Federal Aviation Administration, 1 Aviation Plaza, Room 516, Jamaica, NY 11434. Phone Number: 718-553-2511. Comments on the proposed noise compatibility program

should also be submitted to the above office.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA is reviewing a proposed noise compatibility program (NCP) for Teterboro Airport which will be approved or disapproved on or before January 11, 2023. This notice also announces the availability of this program for public review and comment.

An airport operator who has submitted noise exposure maps (NEM) that are found by FAA to be in compliance with the requirements of title 49, United States Code (U.S.C.) (Aviation Safety and Noise Abatement Act, hereinafter referred to as "the Act") and Title 14, Code of Federal Regulations (CFR) part 150 (14 CFR 150), promulgated pursuant to the Act, may submit a noise compatibility program for FAA approval which sets forth the measures the operator has taken or proposes to reduce existing non-compatible uses and prevent the introduction of additional non-compatible uses. The FAA previously determined that the NEMs for Teterboro Airport were in compliance with applicable requirements under 14 CFR 150, effective June 15, 2017 (Noise Exposure Map Notice for Teterboro Airport, Teterboro, New Jersey, volume 82, **Federal Register**, pages 28545-6, June 22, 2017).

The FAA has formally received the NCP for Teterboro Airport on July 7, 2022. The airport operator has requested that the FAA review this material and that the noise mitigation measures, to be implemented jointly by the airport and surrounding communities, be approved as a NCP under section 47504 of the Act. Preliminary review of the submitted material indicates that it conforms to the requirements for the submittal of NCPs, but that further review will be necessary prior to approval or disapproval of the program for Teterboro Airport. The formal review period, limited by law to a maximum of 180 days, was initiated on July 15, 2022 and will be completed on or before January 11, 2023.

The FAA's detailed evaluation will be conducted under the provisions of 14 CFR 150.33. The primary considerations in the evaluation process are whether the proposed measures may reduce the level of aviation safety, create an undue burden on interstate or foreign commerce, or be reasonably consistent with obtaining the goal of reducing existing non-compatible land uses and preventing the introduction of additional non-compatible land uses.

Interested persons are invited to comment on the proposed program with specific reference to these factors. All comments, other than those properly addressed to local land use authorities, will be considered by the FAA to the extent practicable. Copies of the proposed NCP for Teterboro Airport are available for examination online at http://panynjpart150.com/TEB_FNCP.asp.

The Port Authority of New York and New Jersey has also made a hard copy of the document available for review at the Office of the General Manager for Teterboro Airport, located at 90 Moonachie Avenue, Teterboro, New Jersey. Interested parties can contact the office at (201) 807-4020 to arrange for a review.

Questions regarding this notice may be directed to the individual named above under the heading, **FOR FURTHER INFORMATION CONTACT**.

Issued in Jamaica, NY, on July 15, 2022.

David A. Fish,

Director, Airports Division, Eastern Region.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Termination of the Preparation of an Air Tour Management Plan at Everglades National Park, Florida

AGENCY: Federal Aviation Administration.

ACTION: Notice of Termination of the Preparation of Air Tour Management Plan.

SUMMARY: The Federal Aviation Administration (FAA), in cooperation with the National Park Service (NPS) (together, the agencies), announces that it has discontinued its preparation of the Air Tour Management Plan (ATMP) for commercial air tour operations over Everglades National Park in Florida because the sole air tour operator with interim operating authority (IOA) for the park voluntarily surrendered its Part 135 operating certificate and is no longer authorized to conduct tours over the park. In addition, the voluntary agreements between the operator and the agencies for Biscayne National Park and Big Cypress National Preserve have been terminated and the operator will be deleted from the FAA's records of authorized commercial air tour operators.

FOR FURTHER INFORMATION CONTACT: Keith Lusk, Program Manager, AWP-1SP, Federal Aviation Administration,

Western-Pacific Region, 777 South Aviation Boulevard, Suite 150, El Segundo, California 90245. Telephone: (424) 405-7017.

SUPPLEMENTARY INFORMATION: In a September 3, 2020 **Federal Register** notice (85 FR 55060), the FAA in cooperation with the National Park Service (NPS) provided notice of its intent to complete Air Tour Management Plans (ATMPs) for 23 National Park System units. The agencies began developing ATMPs for these parks, including Everglades National Park, pursuant to the National Parks Air Tour Management Act of 2000 (Pub. L. 106-181) and its implementing regulations contained in 14 CFR part 136, subpart B, National Parks Air Tour Management.

In a July 29, 2021 **Federal Register** notice (86 FR 40897), the FAA, in cooperation with the NPS, announced public meetings and the availability of proposed ATMPs for four National Park System units, including Everglades National Park. The agencies posted the draft ATMP for Everglades National Park on their respective websites and took comments over a 30-day period on the NPS Planning, Environment, and Public Comment System website. The agencies conducted a public meeting for the proposed ATMP for Everglades National Park on August 19, 2021.

On April 13, 2022, the sole operator with interim operating authority (IOA) for Everglades National Park voluntarily surrendered its Part 135 certificate. This certificate is required by the FAA for an operator that provides air transportation of persons or property for compensation or hire. Upon surrender of a Part 135 certificate, all authorizations given to an operator through its Operations Specifications are cancelled, including IOA to conduct commercial air tours over a park. In this case, the operator also had IOA for Biscayne National Park, Big Cypress National Preserve and Dry Tortugas National Park. Given that the operator is no longer authorized to conduct air tours over any of these parks, the operator will be deleted from the FAA's records of authorized commercial air tour operators.

As the sole operator conducting commercial air tours over Everglades National Park has voluntarily surrendered its operating certificate and no longer has the authority to conduct air tours over the park, an ATMP is no longer required or needed at this time. 49 U.S.C. 40128(b)(1)(A). Therefore, the FAA, in cooperation with the NPS, has discontinued its preparation of an ATMP for Everglades National Park.

The FAA and the NPS had also previously entered into voluntary

agreements for the conduct of commercial air tours over Big Cypress National Preserve and Biscayne National Park with this same operator under 49 U.S.C. 40128(b)(7). This notice also announces that both of these voluntary agreements have been terminated due to the operator's voluntary surrender of its operating certificate and with it, its authority to conduct air tours over both Big Cypress National Preserve and Biscayne National Park.

Issued in El Segundo, California, on July 15, 2022.

Keith Lusk,

Program Manager, Special Programs Staff, Western-Pacific Region.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[Docket No. NHTSA-2022-0067]

General Motors—Receipt of Petition for Temporary Exemption From Various Requirements of the Federal Motor Vehicle Safety Standards for an Automated Driving System-Equipped Vehicle

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).

ACTION: Notice of receipt of petition for temporary exemption; request for public comment.

SUMMARY: General Motors (GM) has petitioned NHTSA for a temporary exemption from certain requirements in six Federal motor vehicle safety standards (FMVSS) for its ADS-equipped vehicle, the "Cruise Origin." Specifically, GM seeks exemption from portions of FMVSS No. 102; Transmission shift position sequence, starter interlock, and transmission braking effect, FMVSS No. 104; Windshield wiping and washing systems, FMVSS No. 108; Lamps, reflective devices, and associated equipment, FMVSS No. 111; Rear visibility, FMVSS No. 201; Occupant protection in interior impact, and FMVSS No. 208; Occupant crash protection. NHTSA is publishing this document in accordance with statutory and administrative provisions and seeks comment on the merits of GM's exemption petition and on potential terms and conditions that should be applied to a temporary exemption if granted. After receiving and considering public comments, NHTSA will assess
