Petition for Waiver of Compliance

Under part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that on April 2, 2019, Spark Training Solutions (XSPK), petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 243, Training, Qualification, and Oversight for Safety-Related Railroad Employees. FRA assigned the petition Docket Number FRA–2019–0032.

XSPK is a Training Organization/ Learning Institution and is a small business which uses a third-party

vendor to provide Learning Management System service for itself and its clients. XSPK states it has not been able to find any affordable software or vendor with the ability to provide on-demand reporting of changes to training records as required by § 243.203(e)(3). XSPK proposes an alternate solution that it contends effectively provides an equivalent level of security of amended training records required by the regulation.

[Docket Number FRA–2019–0027]

Notice of Application for Approval of Discontinuance or Modification of a Railroad Signal System

Under part 235 of Title 49 of the Code of Federal Regulations (CFR) and 49 U.S.C. 20502(a), this document provides the public notice that by a document dated March 21, 2019, Appalachian and Ohio Railroad, Inc. (A&O) and CSX Transportation (CSXT) jointly petitioned the Federal Railroad Administration (FRA) seeking approval to discontinue or modify a signal system. FRA assigned the petition Docket Number FRA–2019–0027.

Applicants:

Appalachian and Ohio Railroad, Inc., Mr. J. Thomas Garrett, President, 200 Clark Street, Paducah, KY 42003
CSX Transportation, Mr. Carl A. Walker, Chief Engineer, Communications and Signals, 500 Water Street, Speed Code J–350, Jacksonville, FL 32202

A&O and CSXT request approval to discontinue the traffic control system (TCS) on trackage leased from owner CSXT, on the A&O Cowen District Main Line from control point (CP) Berkeley Run Junction Milepost (MP) BUC 0.0, Grafton WV, to CP Hampton Junction MP BUC 42.1, Buckhannon, WV. CSXT currently dispatches and provides maintenance of the TCS.

A&O states the reasons for the proposed changes are that traffic volumes do not warrant TCS and the current signal system is obsolete and replacement components are difficult to obtain or unavailable from vendors.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's
