

supplies and staff time required by the Court of Indian Offenses.

IV. Request for Comments

The Department of the Interior invites comments on:

(a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) The accuracy of the agencies' estimate of the burden (including the hours and cost) of the proposed collection of information, including the validity of the methodology and assumption used;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(d) Ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other collection techniques or other forms of information technology.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information, to search data sources, to complete and review the collection of information; and to transmit or otherwise disclose the information.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection. They also will become a matter of public record.

All written comments will be available for public inspection in Room 4660 of the Main Interior Building, 1849 C Street, NW, Washington, DC from 9 a.m. until 3 p.m., Monday through Friday, excluding legal holidays.

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information, unless it displays a currently valid Office of Management and Budget control number.

This notice is published under the authority delegated by the Secretary of the Interior to the Assistant Secretary—Indian Affairs by 209 Departmental Manual 8.1.

Dated: January 9, 2002.

Neal A. McCaleb,

Assistant Secretary, Indian Affairs.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[CA–330–1420–01]

Notice of intent To amend the Arcata Resource Management Plan

AGENCY: Bureau of Land Management, Department of the Interior.

ACTION: Notice of intent to amend the Arcata Field Office's Arcata Resource Management Plan (RMP); Humboldt County, California.

SUMMARY: Notice is hereby given that it is the intent of the Bureau of Land Management (BLM) to consider amending the Arcata Field Office's Arcata RMP to address the disposal of one parcel of public land in Humboldt County for the purpose of accomplishing one land exchange. A plan amendment and environmental assessment will be prepared to analyze the effects of disposing of one parcel identified in Township 3 South, Range 2 West, Humboldt Base & Meridian, Section 11, NWSE. The land contains approximately 40 acres.

Public Participation

The public is invited to submit comments on this proposal for consideration in the environmental assessment. If you wish to withhold your name or street address from public review or from disclosure under the Freedom of Information Act, you must state this prominently at the beginning of your written comment. Such requests will be honored to the extent allowed by law. All submissions from organizations and businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be available for public inspection in their entirety.

SUPPLEMENTARY INFORMATION: This notice provides for a comment period for a proposed plan amendment. Pursuant to the regulations at 43 CFR 1600, for a period of 30 days from the publication of this notice in the **Federal Register**, interested parties may submit comments and recommendations regarding the proposed plan amendment to Lynda Roush, Field Manager, Arcata Field Office, 1695 Heindon Road, Arcata, CA 95521. Please reference exchange case file CACA 39912 FD/PT.

FOR FURTHER INFORMATION OR RELATED DOCUMENTS CONTACT: Charlotte Hawks, Realty Specialist, Arcata Field Office, 1695 Heindon Road, Arcata, CA 95521. Telephone: (707) 825–2319.

Daniel E. Averill,

Assistant Field Manager, Arcata.

DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Availability of The Record of Decision for the Final Supplemental Environmental Impact Statement for The Old Agency Area (Project 3P13) of the Natchez Trace Parkway

AGENCY: National Park Service, Interior.

ACTION: Notice of availability.

SUMMARY: The Department of the Interior, National Park Service, announces the availability of a signed Record of Decision (March 23, 2001) on the Final Supplemental Environmental Impact Statement for the Old Agency Area (Project 3P13) of the Natchez Trace Parkway.

The Natchez Trace Parkway was established in 1938 to commemorate the Old Natchez Trace, a primitive network of trails that stretched approximately 716 kilometers (444 mi.) from Natchez, Mississippi, to Nashville, Tennessee. Today, two portions of the parkway motor road comprising about 32 kilometers (20 mi.) of its total length remain unfinished in Mississippi. The 1.8 kilometer (1.1 mi.) unfinished segment of the parkway known as 3P13 is within the city of Ridgeland and, is the focus of the Final Supplemental Environmental Impact Statement (FSEIS) for the Old Agency Road Area and the Record of Decision.

In 1998, public workshops produced 16 conceptual alternatives for construction of the parkway motor road and local public roads within the project area. Following additional public review and NPS evaluation of the conceptual alternatives, five concepts were determined to be the most viable and consistent with the proposed project's purpose. These five concepts were further refined and were analyzed in the Draft and Final Supplemental Environmental Impact Statement for the Old Agency Road Area as Alternatives 1, 2, 3, 4, and 5. Alternative 1 is the alternative that was originally proposed in the 1978 Final Environmental Impact Statement for Natchez Trace Parkway; it is the no-action alternative and served

as a baseline for comparing the other alternatives.

On August 3, 1998, the National Park Service published in the **Federal Register** a notice of intent to prepare a Draft Supplemental Environmental Impact Statement for the Old Agency area (Project 3P13) of the Natchez Trace Parkway.

The National Park Service will implement the Revised Proposed Action as described in the Final Supplemental Environmental Impact Statement for the Old Agency Road Area (Project 3P13) of the Natchez Trace Parkway which was made available to the public in February of 2001.

The Selected Action (Revised Proposed Action) was developed after public review of the Draft Supplemental Environmental Impact Statement. Under the Selected Action, the Natchez Trace Parkway motor road will cross the Old Natchez Trace (Old Agency Road) approximately at-grade and closely follow the existing topography through the NPS right-of-way connecting existing parkway to the east and to the west of the project area. To provide local east-west vehicular circulation and traffic capacity, Old Agency Road Relocated will be constructed south of the parkway motor road from near Whippoorwill Lane to Highland Colony Parkway. To further enhance local north-south traffic circulation through the project area, traffic will crossover the parkway via a bridge which will link Old Agency Road and Old Agency Road Relocated. The new crossover road between Old Agency Road and Old Agency Road Relocated will begin approximately across from St. Andrew's school ballfield parking lot. Access to the Choctaw Agency site will be provided directly from the parkway motor road, and a parking area for visitors will be developed. Old Agency Road from near Whippoorwill Lane to Richardson Road will be closed to vehicular traffic and restored to Old Natchez Trace appearances (the asphalt road surface will be removed, the surface will be graded to drain, planted with turf grasses, and kept mowed); vehicular traffic will be rerouted to Old Agency Road Relocated.

Access to Interstate 55 to the east of the project area will be through the remaining existing Old Agency Road as well as along Old Agency Road Relocated to Highland Colony Parkway. In addition, short portions of Brame Road, and a portion of the northern entrance to the Dinsmor subdivision will be revegetated, and a portion of the Greenwood Plantation driveway will also be closed within the NPS right-of-way and restored to its appearance of

historical significance. Access to Brame Road, Dinsmor subdivision and the Greenwood Plantation will be via the new Old Agency Road Relocated. A deed-reserved driveway will be provided from Old Agency Road Relocated to a tract of land south of the parkway and just east of Dinsmor subdivision. Access to the Canterbury and Windrush subdivisions will continue to be accessed via Old Agency Road. Old Agency Road Relocated will provide access and circulation for local through-traffic, and a new intersection will be constructed at Highland Colony Parkway.

Natural resource impacts (such as vegetation, soils, wildlife) for the Selected Action and each of the five alternatives considered are very similar because the parkway motor road would follow nearly the same alignment through the NPS right-of-way in each alternative. In general, natural resource impacts are considered negligible under the Selected Action and all alternatives due to the already highly fragmented landscape and preponderance of locally abundant and edge-adapted plant and animal species occupying the project area. No federally or state threatened or endangered species or their habitats are impacted under the Selected Action. The Selected Action would negatively impact 0.62 ha (1.53 ac) of Palustrine wetlands. Negative wetland impacts between the Selected Action and the alternatives would vary by just 0.2 ha (0.5 ac). As described in the wetland Statement of Findings (reviewed and approved by the Southeast Regional Director, National Park Service), wetland loss will be mitigated at a 2:1 ratio. Implementation of the Selected Action will not result in impairment from indirect, direct, or cumulative impacts and will not violate the NPS Organic Act.

FOR FURTHER INFORMATION CONTACT: For a complete copy of the Record of Decision and Statement of Findings, contact the Superintendent of the Natchez Trace Parkway at (662) 680-4025 or at the following address: Wendell A. Simpson, Superintendent, 2680 Natchez Trace Parkway, Tupelo, Mississippi 38804.

Dated: June 21, 2001.

Editorial Note: This document was received at the Office of the Federal Register on January 17, 2002.

Wally Hibbard,

Regional Director, Southeast Region.

BILLING CODE 4310-70-M

INTERNATIONAL TRADE COMMISSION

[Investigation No. 731-TA-747 (Review)]

Fresh Tomatoes From Mexico

AGENCY: United States International Trade Commission.

ACTION: Notice of Commission determination to conduct a full five-year review concerning the suspended investigation on fresh tomatoes from Mexico.

SUMMARY: The Commission hereby gives notice that it will proceed with a full review pursuant to section 751(c)(5) of the Tariff Act of 1930 (19 U.S.C. 1675(c)(5)) to determine whether termination of the suspended investigation on fresh tomatoes from Mexico would be likely to lead to continuation or recurrence of material injury within a reasonably foreseeable time. A schedule for the review will be established and announced at a later date. For further information concerning the conduct of this review and rules of general application, consult the Commission's Rules of Practice and Procedure, part 201, subparts A through E (19 CFR part 201), and part 207, subparts A, D, E, and F (19 CFR part 207).

EFFECTIVE DATE: January 4, 2002.

FOR FURTHER INFORMATION CONTACT: Vera Libeau (202-205-3176), Office of Investigations, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202-205-1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202-205-2000. General information concerning the Commission may also be obtained by accessing its Internet server (<http://www.usitc.gov>). The public record for this investigation may be viewed on the Commission's electronic docket (EDIS-ON-LINE) at <http://dockets.usitc.gov/eol/public>.

SUPPLEMENTARY INFORMATION: On January 4, 2002, the Commission determined that it should proceed to a full review in the subject five-year review pursuant to section 751(c)(5) of the Act. The Commission found that both the domestic and respondent interested party group responses to its notice of institution (66 FR 49975, October 1, 2001) were adequate. A record of the Commissioners' votes, the Commission's statement on adequacy,
