OMB Control No.: 3060-0625.

Title: Amendment of the Commission's Rules to Establish New Personal Communications Services under Part 24.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Individuals or households, business or other for-profit, not-for-profit institutions, and state, local or tribal government.

Number of Respondents: 1,500.

Estimated Time Per Response: 3 hours.

Frequency of Response: On occasion reporting requirements, and recordkeeping requirements.

Total Annual Burden: 1,688 hours.

Total Annual Cost: \$675,000.

Needs and Uses: This revised information collection adopts a number of modifications to the Commission's existing narrowband Personal Communications Services (PCS) rules. These include the use of Major Trading Areas (MTA's) for future licensing, the establishment of a "substantial service" alternative to the current construction benchmarks, and modifications to certain provisions of the narrowband PCS competitive bidding rules. The Commission also eliminates the narrowband PCS spectrum aggregation limit and adopts partitioning and disaggregation rules. The Commission believes that the rule modifications it adopts will improve the efficiency of spectrum use, reduce the regulatory burden on spectrum users, encourage competition, and promote service to the largest feasible number of users.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0968.

Title: Slamming Complaint form.

Form No.: FCC Form 478.

Type of Review: Extension.

Respondents: Business or Other for Profit.

Number of Respondents: 3600.

Estimated Time Per Response: 15 minutes (avg.)

Total Annual Burden: 900 hours.

Estimated Annual Reporting and Recordkeeping Cost Burden: \$0.

Frequency of Response: On occasion.

Needs and Uses: The Commission adopted rules to protect consumers from slamming and to take the profit out of an illegal practice for unscrupulous companies. These rules provide a means for consumers who believe they have been slammed to file a complaint with the Commission. FCC Form 478 will significantly improve the Commission's ability to process complaints without delays. In particular, the complaint form will ensure that consumers have to file a complaint only once rather than seeking various avenues of redress. By requesting the precise information needed to process and resolve complaints, FCC Form 478 will provide the Commission with a more efficient means of handling slamming complaints and moving against the perpetrators.
