SUPPLEMENTARY INFORMATION: The Census Bureau is planning a national webinar on September 19, 2022, with federally recognized tribes, so tribes can provide feedback on the 2010 Demonstration Data Product—Demographic and Housing Characteristics File (DHC). This demonstration data product represents the near final version of the 2020 Census Disclosure Avoidance System (DAS) applied to 2010 Census Data. It allows comparisons of 2010 Census data with the new disclosure protections against the published 2010 Census products that were protected using the prior swapping mechanism. The DHC provides demographic and housing characteristics, including age, sex, race, Hispanic or Latino origin, relationship to householder, household type, couple type, housing tenure, and vacancy. Some subjects are repeated by major OMB race/ethnicity groups.

In accordance with Executive Order 13175 Consultation and Coordination with Indian Tribal Governments issued November 6, 2000, the Census Bureau has adhered to its tribal consultation policy by seeking the input of tribal governments in the planning and implementation of the 2020 Census with the goal of ensuring the most accurate counts and data for the American Indian and Alaska Native population. In that regard, the Census Bureau is seeking comments on the 2010 Demonstration Data Product—DHC. Note, that while the focus of this tribal consultation is the DHC, additional 2020 Census data products are planned including the

Detailed DHC—A, Detailed DHC—B, and S—DHC. Detailed DHC—A and Detailed DHC—B include detailed race, ethnicity, and American Indian and Alaska Native tribe and village populations.

The Census Bureau will conduct two tribal consultation meetings on the Detailed DHC—A and Detailed DHC—B this October. Notification and materials will be sent to all federally recognized tribes in September 2022.

Demographic and Housing Characteristics File (DHC)

The DHC will include some of the demographic and housing tables previously included in the 2010 Census Summary File 1 (SF1).

- **Subjects:** Age, sex, race, Hispanic or Latino origin, relationship to householder, group quarters population, household and family type, housing occupancy, and housing tenure. Some subjects are repeated for major OMB race/ethnicity groups.

- **Access:** data.census.gov.

- **Lowest level of geography:** Geography varies by table with many available down to the block level.

- **Release Date:** Tentatively May 2023.

- Information about the content of these data products was released on September 16, 2021. Information was presented during the August 18, 2022, tribal listening session and were notified of the 30-day review period. Submit your comments by email. Send comments to: 2020DAS@census.gov.

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; National Sample Survey of Registered Nurses

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general

public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on March 14, 2022 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: U.S. Census Bureau, Department of Commerce.

Title: National Sample Survey of Registered Nurses.

OMB Control Number: 0607-1002.

Form Number(s): NSSRN (paper questionnaire).

Type of Request: Regular submission, reinstatement with changes request of a previously approved collection.

Number of Respondents: 37,500 Registered Nurses (RNs) and 25,000 Nurse practitioners (NPs) for a total of 62,500 respondents.

Average Hours per Response: 30 minutes for RNs and 33 minutes for NPs.

Burden Hours: 32,500.

Needs and Uses: Sponsored by the U.S. Department of Health and Human Services' (HHS) Health Resources and Services Administration's (HRSA) National Center for Health Workforce Analysis (NCHWA), the National Sample Survey of Registered Nurses (NSSRN) is designed to obtain the necessary data to determine the characteristics and distribution of Registered Nurses (RNs) throughout the United States, as well as emerging patterns in their employment characteristics. These data will provide the means for the evaluation and assessment of the evolving demographics, educational qualifications, and career employment patterns of RNs. Such data have become particularly important to better understand workforce issues given the recent dynamic changes in the RN population and, the transformation of the healthcare system.

The Census Bureau will request survey participation from up to 125,000 RNs using one of two modes. The first mode is a web instrument (Centurion) survey. All letters mailed to respondents will include a web link to complete the survey. The second mode is a mailout/mail back of a self-administered paper-and-pencil interviewing (PAPI) questionnaire. There will be one paper questionnaire mailing. All respondents will have access to a telephone questionnaire assistance line that they will be able to get login assistance, language support, and even complete

the interview with a Census telephone interview agent.

The National Sample Survey of Registered Nurses is proposing one experiment for the 2022 cycle utilizing unconditional monetary incentives. For the 2022 cycle, NSSRN is proposing \$5 with an initial web invitation letter for 90% of the sample receiving. The intention of the monetary incentive is to test the efficacy of reducing nonresponse bias by encouraging response, that is, whether offering \$5 increases response, thus reducing non-response bias, and reducing costs associated with follow-up mailings. The unconditional monetary incentive will be randomly assigned to 90% of the sample prior to data collection. The remaining 10% of the sample will not receive an unconditional monetary incentive and will be the control group.

Affected Public: Nurses.

Frequency: The 2022 collection is the second administration of the NSSRN. Data collection is every four years.

Respondent's Obligation: Voluntary.

Legal Authority: Census Authority: Title 13, United States Code (U.S.C.), Section 8(b) (13 U.S.C. 8(b)).

HRSA Authority: Public Health Service Act, 42 U.S.C. Section 294n(b)(2)(A) and 42 U.S.C. Section 295k(a)–(b).

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function and entering either the title of the collection or the OMB Control Number 0607–1002.
