[Docket No. 060317076–6076–01; I.D. 032006E]

RIN 0648–AU41

Fisheries off West Coast States and in the Western Pacific; Western Pacific Pelagic Fisheries; Fishery Closure

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS is closing the shallow-set pelagic longline fishery north of the equator for all vessels registered under the Hawaii longline limited access program. This action is necessary to comply with regulations that govern the pelagic fisheries of the western Pacific region that establish maximum annual limits on the numbers of interactions that occur between longline fishing gear and sea turtles. The 2006 annual limit on physical interactions between longline fishing and sea turtles has been reached, so the fishery must be closed for the remainder of the calendar year.

DATES: Effective 7:09 a.m. (0709 hrs) Hawaii Standard Time (HST) on March 20, 2006, through 11:59 p.m. (2359 hrs) HST on December 31, 2006.

FOR FURTHER INFORMATION CONTACT: Robert Harman, NMFS, 808–944–2271.

SUPPLEMENTARY INFORMATION: NMFS manages the pelagic longline fishery for swordfish, tunas and related species in the western Pacific region, according to the Fishery Management Plan for the Pelagic Species of the Western Pacific Region, prepared by the Western Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 660.

The regulations at § 660.33(b)(1) governing western Pacific pelagic fisheries establish maximum annual limits on the numbers of physical interactions that occur between longline fishing gear and sea turtles. These limits apply to physical interactions experienced by vessels registered under Hawaii longline limited-access permits while engaged in shallow-set longline fishing, i.e., fishing that is directed at swordfish. There are two calendar-year annual limits on physical interactions,

one for leatherback sea turtles set at 16, and one for loggerhead sea turtles set at 17.

Interactions with turtles are monitored using data from scientific observers placed by NMFS aboard all vessels engaged in shallow-set longline fishing. NMFS is required to maintain 100 percent observer coverage in the Hawaii shallow-set longline fishery.

The regulations at § 660.33(b)(2) prescribe that, as soon as the interaction limit for either of the two turtle species has been determined to have been reached in a given year, the shallow-set component of the Hawaii-based longline fishery must be closed for the remainder of the calendar year, after giving permit holders and operators actual notice of the closure. Upon receiving actual notice from NMFS, fishermen are required to remove all longline fishing gear from the water and immediately terminate their fishing trip. Once the shallow-set component of the fishery is closed, it is prohibited for any vessel registered under a Hawaii longline limited-access permit to engage in shallow-set longline fishing north of the equator.

In accordance with § 660.33(b)(2), the Regional Administrator, Pacific Islands Region, NMFS, has determined that the 2006 interaction limit of 17 loggerhead turtles has been reached. Consequently, NMFS closed the shallow-set component of the Hawaii-based longline fishery at 7:09 a.m. (0709) HST on March 20, 2006. This closure ends at 11:59 pm (2359 hrs) HST on December 31, 2006.

Classification

This action responds to the best available information obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. Given the ability of the fishery to suddenly reach and exceed the low limit on turtle takes, it is impracticable for NMFS to delay implementing the closure. There is insufficient time between when the observer data are collected as to the number of turtle interactions in the fishery and the time the fishery closure must be implemented. If not implemented quickly, the number of allowable interactions will likely be exceeded, thereby imposing harm to the public interest in protecting these turtle species. For the same reasons, the AA also finds good cause to waive the 30–

day delay in the effective date of this action under 5 U.S.C. 553(d)(3).

This action is required by § 660.33(b)(2) and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: March 20, 2006.

Alan D. Risenhoover,
Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

[Docket No. 060216044–6044–01; I.D. 032106B]

Fisheries of the Exclusive Economic Zone Off Alaska; Pollock in Statistical Area 620 of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS is prohibiting directed fishing for pollock in Statistical Area 620 of the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the B season allowance of the 2006 total allowable catch (TAC) of pollock for Statistical Area 620 of the GOA.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), March 21, 2006, through 1200 hrs, A.l.t., August 25, 2006.

FOR FURTHER INFORMATION CONTACT: Josh Keaton, 907–586–7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The B season allowance of the 2006 TAC of pollock in Statistical Area 620 of the GOA is 13,394 metric tons (mt) as established by the 2006 and 2007 harvest specifications for groundfish of the GOA (71 FR 10870, March 3, 2006). In accordance with § 679.20(a)(5)(iv)(B) the Administrator, Alaska Region, NMFS (Regional Administrator), hereby increases the B season pollock

allowance by 1,818 mt, the remaining amount of the A season allowance for pollock in Statistical Area 620. Therefore, the revised B season allowance of the pollock TAC in Statistical Area 620 is therefore 15,212 mt (13,394 mt plus 1,818 mt).

In accordance with § 679.20(d)(1)(i), the Regional Administrator has determined that the B season allowance of the 2006 TAC of pollock in Statistical Area 620 of the GOA will soon be reached. Therefore, the Regional Administrator is establishing a directed fishing allowance of 15,200 mt, and is setting aside the remaining 12 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for pollock in Statistical Area 620 of the GOA.

After the effective date of this closure the maximum retainable amounts at § 679.20(e) and (f) apply at any time during a trip.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the closure of pollock in Statistical Area 620 of the GOA. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of March 20, 2006.

The AA also finds good cause to waive the 30 day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: March 21, 2006.

Alan D. Risenhoover,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

[Docket No. 060216044-6044-01; I.D. 032006A]

Fisheries of the Exclusive Economic Zone Off Alaska; Reallocation of Pacific Cod in the Bering Sea and Aleutian Islands Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; reallocation.

SUMMARY: NMFS is reallocating the projected unused amount of Pacific cod from vessels using jig gear to catcher vessels less than 60 feet (18.3 meters (m)) length overall (LOA) using pot or hook-and-line gear in the Bering Sea and Aleutian Islands management area (BSAI). These actions are necessary to allow the 2006 A season total allowable catch (TAC) of Pacific cod to be harvested.

DATES: Effective March 21, 2006, through 2400 hrs, Alaska local time (A.l.t.), December 31, 2006.

FOR FURTHER INFORMATION CONTACT: Josh Keaton, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI according to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2006 A season allowance of the Pacific cod TAC specified for vessels using jig gear in the BSAI is 1,393 metric tons (mt) as established by the 2006 and 2007 final harvest specifications for groundfish in the BSAI (71 FR 10894, March 3, 2006) and the adjustment of the Pacific cod TACs in the BSAI on March 14, 2006 (71 FR 13777, March 17, 2006), for the period

1200 hrs, A.l.t., January 1, 2006, through 1200 hrs, A.l.t., April 30, 2006. See § 679.20(c)(3)(iii), § 679.20(c)(5), and § 679.20(a)(7)(i)(A).

The Administrator, Alaska Region, NMFS, has determined that jig vessels will not be able to harvest 1,300 mt of the A season apportionment of Pacific cod allocated to those vessels under § 679.20(a)(7)(i)(A) and § 679.20(a)(7)(iii)(A)(3). Therefore, in accordance with § 679.20(a)(7)(ii)(C)(1), NMFS apportions 1,300 mt of Pacific cod from the A season jig gear apportionment to catcher vessels less than 60 feet (18.3 m) LOA using pot or hook-and-line gear.

The harvest specifications for Pacific cod included in the harvest specifications for groundfish in the BSAI (71 FR 10894, March 3, 2006) are revised as follows: 93 mt to the A season apportionment for vessels using jig gear and 2,536 mt to catcher vessels less than 60 feet (18.3 m) LOA using pot or hook-and-line gear.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the reallocation of Pacific cod specified for jig vessels to catcher vessels less than 60 feet (18.3 m) LOA using pot or hook-and-line gear. Since the fishery is currently open, it is important to immediately inform the industry as to the revised allocations. Immediate notification is necessary to allow for the orderly conduct and efficient operation of this fishery; allow the industry to plan for the fishing season and avoid potential disruption to the fishing fleet as well as processors. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of March 14, 2006.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.
