Freeport-McMoRan Energy LLC; Notice of Application

March 4, 2004.

Take notice that on February 27, 2004, Freeport-McMoRan Energy LLC (FME), 1615 Poydras Street, New Orleans, Louisiana, 70112, filed in Docket Nos. CP04-68-000 and CP04-69-000 an application, pursuant to section 7(c) of the Natural Gas Act and Part 157, subpart A of the Commission's regulations, for: (1) A certificate of public convenience and necessity to construct, own, and operate a single-use natural gas pipeline facility, the Coden Onshore Pipeline, to transport natural gas from the offshore Main Pass Energy Hub™ (MPEH™) deepwater liquefied natural gas (LNG) port to interconnections with interstate natural gas pipelines near Coden, Mobile County, Alabama; and (2) a blanket certificate of public convenience and necessity in Docket No. CP04-69-000 under Subpart F of Part 157. The application is on file with the Commission and open to public inspection. The filing may also be viewed on the Web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, call (866) 208-3767 or TTY, (202) 502-8659.

FME proposes to construct, own, and operate the Coden Onshore Pipeline, a 5.1-mile, 36-inch, single-use pipeline with a capacity of 1.5 billion cubic feet per day (Bcf/D). FME states that the sole purpose of these pipeline facilities would be to transport natural gas owned by FME from FME's proposed MPEH™ offshore deepwater port for the importation and vaporization of LNG, and processing, storage and transportation of natural gas and natural gas liquids, which would be located off the Louisiana coast. FME states that it will operate the MPEH™ as a proprietary deepwater LNG port pursuant to the Deepwater Port Act of 1974. FME also states that it filed an application to construct and operate the offshore portions of the MPEH™ project with the U.S. Coast Guard on February 27, 2004.

FME asserts that, inasmuch as it plans to use the proposed Coden Onshore Pipeline solely to deliver natural gas owned by FME on a proprietary basis,
