Science Advisory Board Staff Office, SAB Particulate Matter (PM) Research Centers Program Review Panel; Request for Nominations

**AGENCY:** Environmental Protection Agency (EPA). **ACTION:** Notice.

SUMMARY: The U.S. Environmental Protection Agency (EPA or Agency) Science Advisory Board (SAB) Staff Office is announcing the formation of an SAB panel to advise the Agency concerning the future direction of its Particulate Matter (PM) Research Centers Program. The SAB Staff Office is soliciting public nominations for this Panel.

**DATES:** New nominations should be submitted by February 21, 2008.

FOR FURTHER INFORMATION CONTACT: Any member of the public wishing further information regarding this Request for Nominations may contact Mr. Fred Butterfield, Designated Federal Officer (DFO), EPA Science Advisory Board (1400F), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; via telephone/voice mail: (202) 343–9994; fax: (202) 233–0643; or e-mail at: butterfield.fred@epa.gov. General information concerning the EPA Science Advisory Board can be found on the EPA Web Site: http://www.epa.gov/sab.

### SUPPLEMENTARY INFORMATION:

Background: The SAB was established by 42 U.S.C. 4365 to provide independent scientific and technical advice to the Administrator on the technical basis for Agency positions and regulations. The SAB is a Federal advisory Committee chartered under the Federal Advisory Committee Act (FACA), as amended, 5 U.S.C., App. The SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

In EPA's 1998 appropriations bill, Congress directed EPA to establish as many as five university-based particulate matter (PM) research centers as part of the expanded Office of Research and Development (ORD) PM research program. The first research centers were funded from 1999 to 2005. The total budget for each center over five years was \$8 million, for a program total of \$40 million. In the original Request for Applications (RFA), prospective Centers were asked to propose an integrated research program on the health effects of PM, including exposure, dosimetry, toxicology and epidemiology. In 2004, a second competition was held. This RFA asked respondents to address the central theme of "linking health effects to PM sources and components," and to focus on the research priorities of susceptibility, biological mechanisms, exposure-response relationships, and source linkages. From the second competition, five current centers are funded for 2005-2010 (the budget remains \$40 million total).

ORD's PM Research Centers program was initially shaped by recommendations from the National Research Council. The SAB conducted an interim review of the Centers program in 2002 (see: http:// vosemite.epa.gov/sab/sabproduct.nsf/ 6374FD2B32EFE73 0852570CA007415FE/\$File/ ec02008.pdf), which was instrumental in providing additional guidance for the second phase of the program (2005-2010). The Agency now seeks the advice of an SAB expert panel on the structure and strategic direction for the program as ORD contemplates funding a third round of air pollution research centers into the future. This Federal Register notice solicitation is seeking nominations for the SAB PM Research Centers Program Review Panel.

Request for Nominations: The SAB Staff Office is requesting nominations for nationally- and internationally-recognized, non-EPA scientists with extensive research program management expertise and experience related to airborne pollution and the application of research results in reducing air pollution in protection human health and the environment. The experts should also have had direct research experience related to PM.

Process and Deadline for Submitting Nominations: Any interested person or organization may nominate qualified individuals to add expertise to the SAB PM Research Centers Program Review Panel in the areas of expertise listed above. Nominations should be submitted in electronic format through the SAB Web site: http:// yosemite.epa.gov/sab/sabproduct.nsf/ Web/participatepanelformation? OpenDocument. Please follow the instructions for submitting nominations carefully. To be considered, nominations should include all of the information required on the associated forms. Anyone unable to submit nominations using the electronic form and who has any questions concerning the nomination process may contact Mr. Fred Butterfield, DFO, as indicated above in this notice. Nominations should be submitted in time to arrive no later than February 21, 2008.

To be considered, all nominations should include: A current curriculum vitae (C.V.) which provides the nominee's background, qualifications, research expertise and relevant publications for service on the Panel; and a brief biographical sketch ("biosketch"). The biosketch should be no longer than one page and should contain the following information for the nominee:

- (a) Current professional affiliations and positions held;
- (b) Area(s) of expertise, and research activities and interests relevant to the Panel:
- (c) Leadership positions in national associations or professional publications or other significant distinctions;
- (d) Educational background, especially advanced degrees, including when and from which institutions these were granted; and
- (e) Service on other advisory committees or professional societies, especially those associated with issues under discussion in this review.

  Incomplete biosketches will not be considered. The EPA SAB Staff Office will acknowledge receipt of nominations.

The EPA SAB Staff Office will post the biosketches of qualified nominees for public comment on the SAB Web site. Information will be made available via the link to this panel found at: http://yosemite.epa.gov/sab/sabproduct.nsf/WebBoard/SABAdHocCommitteesandPanels? OpenDocument, and will include, for each candidate, the nominee's name and their biosketch. Public comments on this "Short List" of candidates will be accepted for 21 calendar days. The

public will be requested to provide relevant information or other documentation on nominees that the SAB Staff Office should consider in evaluating candidates.

For the EPA SAB Staff Office, a balanced subcommittee or review panel includes candidates who possess the necessary domains of knowledge, the relevant scientific perspectives (which, among other factors, can be influenced by work history and affiliation), and the collective breadth of experience to adequately address the charge. In establishing the final SAB PM Research Centers Program Review Panel, the SAB Staff Office will consider public comments on the "Short List" of candidates, information provided by the candidates themselves, and background information independently gathered by the SAB Staff Office. Specific criteria to be used for Panel membership include: (a) Scientific and/or technical expertise, knowledge, and experience (primary factors); (b) availability and willingness to serve; (c) absence of financial conflicts of interest; (d) absence of an appearance of a lack of impartiality; and (e) skills working in committees, subcommittees and advisory panels; and, for the Panel as a whole, (f) diversity of, and balance among, scientific expertise, viewpoints, etc.

The SAB Staff Office's evaluation of an absence of financial conflicts of interest will include a review of the "Confidential Financial Disclosure Form for Special Government Employees Serving on Federal Advisory Committees at the U.S. Environmental Protection Agency" (EPA Form 3110-48). This confidential form allows Government officials to determine whether there is a statutory conflict between that person's public responsibilities (which includes membership on an EPA Federal advisory committee) and private interests and activities, or the appearance of a lack of impartiality, as defined by Federal regulation. The form may be viewed and downloaded from the following SAB Web site: http:// yosemite.epa.gov/sab/sabproduct.nsf/ Web/Ethics?OpenDocument.

The approved policy under which the EPA SAB Office selects subcommittees and review panels is described in the following document: Overview of the Panel Formation Process at the Environmental Protection Agency Science Advisory Board (EPA-SAB-EC-02-010, September 2002), which is posted on the SAB Web site: http://yosemite.epa.gov/sab/sabproduct.nsf/WebSABSO/

## ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2008-0002; FRL-8349-3]

# System Research and Application Corporation; Transfer of Data

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** This notice announces that pesticide related information submitted to EPA's Office of Pesticide Programs (OPP) pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Federal Food, Drug, and Cosmetic Act (FFDCA), including information that may have been claimed as Confidential Business Information (CBI) by the submitter, will be tranferred to the System Research and Application Corporation, in accordance with 40 CFR 2.309(c) and 2.308(h)(2). The System Research and Application Corporation, will perform work for OPP under an Interagency Agreement (IAG). Access to this information will enable System Research and Application Corporation, to fulfill the obligations of the IAG.

**DATES:** The System Research and Application Corporation, will be given access to this information on or before February 11, 2008.

### FOR FURTHER INFORMATION CONTACT:

Felicia Croom, Information Technology and Resources Management Division (7502P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460–0001; telephone number: (703) 305–0786; e-mail address: croom.felicia@epa.gov.

## SUPPLEMENTARY INFORMATION:

#### I. General Information

A. Does this Action Apply to Me?

This action applies to the public in general. As such, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under FOR FURTHER INFORMATION CONTACT.

- B. How Can I Get Copies of this Document and Other Related Information?
- 1. Docket. EPA has established a docket for this action under docket identification (ID) number EPA-HQ-OPP-2008-0002. Publicly available docket materials are available either in the electronic docket at http:// www.regulations.gov, or, if only available in hard copy, at the Office of Pesticide Programs (OPP) Regulatory Public Docket in Rm. S-4400, One Potomac Yard (South Bldg.), 2777 S. Crystal Dr., Arlington, VA. The hours of operation of this Docket Facility are from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The Docket Facility telephone number is (703) 305-5805.
- 2. Electronic access. You may access this **Federal Register** document electronically through the EPA Internet under the "**Federal Register**" listings at http://www.epa.gov/fedrgstr.

### **II. Contractor Requirements**

Under IAG No. EP-W-050-24, which supports the OPP's regulatory efforts, the System Research and Application Corporation, will perform configuration management and monitor tasks for the Office of Information Technology Resources Management Division.

The OPP has determined that the IAG described involves work that is being conducted in connection with FIFRA, in that pesticide chemicals will be the subject of certain evaluations to be made under this IAG. These evaluations may be used in subsequent regulatory decisions under FIFRA.

Some of this information may be entitled to confidential treatment. The information has been submitted to EPA under sections 3, 4, 6, and 7 of FIFRA and under sections 408 and 409 of FFDCA.

In accordance with the requirements of 40 CFR 2.309(c), 2.307(h), and 2.308(h)(2), this IAG with the System Research and Application Corporation, prohibits use of the information for any purpose not specified in the IAG; prohibits disclosure of the information to a third party without prior written approval from the Agency; and requires that each official and employee of the subcontractor sign an agreement to protect the information from unauthorized release and to handle it in accordance with the FIFRA Information Security Manual. In addition, the System Research and Application Corporation, are required to submit for EPA approval a security plan under which any CBI will be secured and protected against unauthorized release
