

Grant monitoring. Each grant will be monitored by USDA Rural Development to ensure that the grantee is complying with the terms of the grant and that the TSA project activity is completed as approved. Ordinarily, this will involve a review of quarterly and final reports by USDA Rural Development and review by the appropriate Area Office.

Additional grants. An additional grant may be made to an applicant that has previously received a TSA grant and substantially achieved the goals established for the previous grant by submitting a new proposal for TSA funds. The additional grant application will be processed as if it were an initial application.

Management assistance. The Area Office will see that each TSA grantee receives management assistance to help achieve a successful program.

(1) TSA employees who will be contacting and assisting families will receive training in packaging single family housing and Rural Rental Housing loans when, or very shortly after, they are hired so that they can work effectively.

(2) TSA employees who will provide counseling, outreach, and other technical and supervisory assistance will receive training on USDA Rural Development policies, procedures, and requirements appropriate to their positions and the type of assistance the grantee will provide at the outset of the grant.

(3) Training will be provided by USDA Rural Development employees and/or outside sources approved by USDA Rural Development when the technical and supervisory assistance involves rural housing programs other than Rural Development programs. Appropriate training of TSA employees should be anticipated during the planning stages of the grant and the reasonable cost of such training included in the budget.

(4) The Area Office, in cooperation with the appropriate Local Office(s), should coordinate the management assistance given to the TSA grantee in a manner which is timely and effective. This will require periodic meetings with the grantee to discuss problems being encountered and offer assistance in solving these problems; to discuss the budget, the effectiveness of the grant, and any other unusual circumstances affecting delivery of the proposed TSA services; to keep the grantee aware of procedural and policy changes, availability of funds, etc.; and to discuss any other matters affecting the availability of housing opportunities for low-income families.

(5) The Area and/or Local Office will advise the grantee of the options available to bring the delinquent borrowers' accounts current and advise the grantee that the appropriate approval authority for any resolution of the delinquent accounts and all other authority currently available to remedy delinquent accounts.

Grant evaluation, closeout, suspension, and termination. Grant evaluation will be an ongoing activity performed by both the grantee and USDA Rural Development. The grantee will perform self-evaluations by preparing periodic project performance reports in accordance with 7 CFR 1944.541. USDA Rural Development will also review all reports prepared and submitted by the grantee in accordance with the grant agreement and 7 CFR part 1944, subpart K.

Within forty-five (45) days after the grant ending date, the grantee will complete closeout procedures as specified in the grant agreement.

The grant can also be terminated before the grant ending date for the causes specified in the grant agreement. No further grant funds will be disbursed when grant suspension or termination procedures have been initiated in accordance with the grant agreement.

Endangered and Threatened Species; Take of Anadromous Fish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed modification of permit 1235.

SUMMARY: NOAA's National Marine Fisheries Service (NMFS) has received a request from the City of Seattle (the

City) to amend its Permit 1235 (Permit) authorizing take of Puget Sound chinook salmon incidental to the operation of the City's watershed supply and management system. NMFS is requesting comments on whether Permit 1235 if amended as requested would still meet the statutory criteria for issuance of an incidental take permit.

DATES: Written comments on the proposed permit amendment must be received at the appropriate address or fax number (see **ADDRESSES**) no later than 5 p.m. Pacific Standard Time July 20, 2007.

ADDRESSES: Written comments should be sent to Matthew Longenbaugh, Habitat Conservation Division, National Marine Fisheries Service, 510 Desmond Drive, Suite 103, Lacey, WA 98503. Comments may also be faxed to 360-753-9517. Comments will be accepted via email at

SUPPLEMENTARY INFORMATION: Under the Endangered Species Act (ESA) and its implementing regulations, $\geq$ take $\geq$ - defined to include harm and harassment as well as activities such as killing and capture - of endangered species is prohibited, absent a permit or other exception. By regulation, NMFS has applied the prohibition of take to threatened Puget Sound chinook salmon. In 2000, NMFS issued Incidental Take Permit 1235 (Permit) authorizing take of Puget Sound chinook salmon incidental to the operation of the City's water supply system. The City's Cedar River Watershed Habitat Conservation Plan (HCP), required for issuance of an incidental take permit, and supporting documents by NMFS analyzed the effects of the City's activities, not only to the listed Puget Sound chinook salmon but also to several species that were not listed under the ESA in 2000. The HCP and the Implementing Agreement (IA) signed by the City and NMFS, among others, provide that the Permit's authorization for incidental take of unlisted species becomes effective for that species upon its listing and subsequent application of the take prohibition. However, until the species is listed and take is prohibited, the City needs no Federal authorization to take individual members of that unlisted species.

On March 1, 2007, the City requested that the Permit no longer include one species of salmon, the Cedar River
