

mentioned above should recognize the nature and character of documents addressing each criterion need not be the same. For example, an applicant may establish employment with TWA through official employment records, but find that proving assignment to an ATC contract crew outside the continental United States more difficult. In such a case, an applicant may be able to prove assignment and service at that location through other evidence, such as, dated, postmarked (or other sign of authenticity) correspondence (official or personal) to or from the applicant at that assignment outside the United States.

Upon confirmation of an applicant's eligibility, the DD Form 214 will be passed from AFPC/DPPRP to the Awards and Decorations office to determine which ribbons the applicant is eligible to receive (campaign ribbons, theater ribbons, victory medal, etc.). Specific awards (*i.e.*, Silver Star, Purple Heart, etc.) need separate justification detailing the act, achievement, or service believed to warrant the appropriate medal/ribbon.

DD Forms 2168 are available from VA offices or from the U.S. Air Force offices in this notice. An electronic version is also available in Adobe Acrobat (the reader is free) on the Internet at "DefenseLINK, publications."

Benefit Information

A determination of "active duty" under Public Law 95-202 is "for the purposes of all laws administered by the Department of Veterans Affairs" (Sec. 106, 38 U.S.C.). Benefits are not retroactive and do not include such things as increased military or Federal Civil Service retirement pay, or a military burial detail, for example. Entitlement to state veteran's benefits varies and is governed by each state. Therefore, for specific benefits information, contact your nearest Veterans Affairs Office and your state veterans service office after you have received your Armed Forces discharge documents.

Availability of the Final Supplemental Environmental Impact Statement for the Missouri River Fish and Wildlife Mitigation Project Located on the Missouri River from Sioux City, IA to the Mouth Near St. Louis, MO in the States of Iowa, Nebraska, Kansas, and Missouri

AGENCY: Department of the Army. U.S. Army Corps of Engineers, DoD.

ACTION: Notice of availability.

SUMMARY: This announces the availability of the Final Supplemental Environmental Impact Statement (FSEIS) for the Missouri River Fish and Wildlife Mitigation Project located on the Missouri River in the states of Iowa, Nebraska, Kansas, and Missouri. The Mitigation Project was first authorized by the Water Resources Development Act (WRDA) of 1986, which included the development of 48,100 acres of aquatic and terrestrial habitat for fish and wildlife along the 735 miles of the Missouri River between Sioux City, IA and St. Louis, MO. The WRDA of 1999 modified the Mitigation Project by increasing the amount of habitat development by 118,650 acres to a total of 166,750 acres. The FSEIS assesses the potential environmental impacts of the modified Mitigation Project, which includes the development, restoration, or enhancement of fish and wildlife habitat on an additional 118,650 acres on individual sites purchased from willing sellers and through easements. The purpose of the Mitigation Project is to restore fish and wildlife habitat losses resulting from the construction and development of the Missouri River Bank Stabilization and Navigation Project (BSNP). Seven alternatives are considered in the FSEIS and three alternatives are analyzed in detail including a Preferred Action, No Development alternative, and No Action alternative.
