The bridge has a vertical clearance of one foot above high water in the closed-to-navigation position and unlimited clearance in the open-to-navigation position. Navigation on the waterway consists of tugs with tows, small ships, fishing vessels, sailing vessels, and other recreational craft. Presently, in accordance with 33 CFR 117.5, the draw shall open on signal for the passage of vessels.

This temporary deviation allows the bascule bridge to remain closed to navigation from 7 a.m. on Monday, February 10, 2014 through 11:59 p.m. on Wednesday, February 12, 2014, except that the bridge will open to pass all waiting vessels at 6:45 a.m., 12 noon, 4 p.m. and 12 midnight daily during the closure period. During this time, repairs will be performed to the electrical systems of the bridge.

During the closure period, the bridge will not be able to open for the passage of vessels except during the scheduled periods of operation. Alternate routes are available via the Chef Menteur Pass and the Rigolets.

In accordance with 33 CFR 117.35, the draw bridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation.

This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: January 13, 2014.
