Federal Acquisition Regulation; Termination for Default Reporting

AGENCIES: Department of Defense (DoD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Final rule.

SUMMARY: The Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (the Councils) are issuing a final rule amending the Federal Acquisition Regulation (FAR) to establish procedures for contracting officers to provide contractor information, such as terminations for cause or default and defective cost or pricing data, into the Past Performance Information System (PPIRS) and Federal Awardee Performance and Integrity Information

System (FAPIS) module within PPIRS. This information will assist the contracting officer in making an informed source selection and award decision. Instructions on access to the FAPIS module and how to input data into the FAPIS module will be available at <http://www.ppirs.gov/fapiis.html>.

DATES: *Effective Date:* October 29, 2010.

FOR FURTHER INFORMATION CONTACT: For clarification of content, contact Jeritta Parnell, Procurement Analyst, at (202) 501–4082. For information pertaining to status or publication schedules, contact the Regulatory Secretariat at (202) 501–4755. Please cite FAC 2005–46, FAR case 2008–016.

SUPPLEMENTARY INFORMATION:

A. Background

The Councils have agreed on a final rule amending the FAR to revise the contractor performance information process. This case sets forth requirements for contracting officers to report defective cost or pricing data and terminations for cause or default into the FAPIS module of the PPIRS. Evaluation of past performance information, especially terminations, manages risks associated with timely, effective, and cost efficient completion of contracts, a key objective of the President's March 4, 2009, Memorandum on Government Contracting.

The Councils published in the *Federal Register* at 74 FR 45394 on September 2, 2009, a proposed rule with request for comments. Four respondents submitted fifteen comments.

B. Discussion of Public Comments

The comments received were grouped under six general topics. A summary of these topics and a discussion of the comments and the changes made to the proposed rule as a result of those comments are provided below:

1. Certification Regarding Responsibility Matters

Comment: One respondent recommended deletion of the certification on terminations found in FAR clause 52.209–5, Certification Regarding Responsibility Matters, since the information concerning terminations will be available to contracting officers in PPIRS. The respondent further suggested that conforming deletions should also be made at FAR 52.204–8(c)(1)(v) and in the Online Representations and Certifications Application (ORCA) Web site.

Response: The Councils disagree. PPIRS is the repository for

determinations made by contracting officers. PPIRS is not a repository for certifications made by contractors when certifications are required. Executive order 12689 requires the inclusion of the certification at FAR 52.209–5. FAR 9.105–1 also requires contracting officers to consider contractor certifications in making a contractor determination of responsibility.

2. Contractor Rebuttal

Comment: Two of the four respondents submitted comments requesting that the contractor be given an opportunity to post rebutting statements and additional information into PPIRS and this information be retained as long as the fundamental information is retained in PPIRS.

Response: When termination records are posted in the FAPIIS module of PPIRS, contractors will have an opportunity to provide additional information as required by section 872 of the Duncan Hunter National Defense Authorization Act of 2009 (Pub. L. 110–417). This process should not be confused with the rebuttal process for past performance information as specified in FAR 42.1503(b).

3. Defective Pricing Information

Comment: One respondent submitted two separate comments suggesting that defective pricing information not be included in PPIRS.

Response: The Councils disagree. The Councils believe that defective cost or pricing data is relevant to other contractor performance information to be considered when evaluating contractor's performance for award of contracts. However, the Councils did clarify in FAR 15.407–1(d) and 42.1503(f) that the contracting officer shall report only the final determination.

4. Relevance and Currency

Comment: One respondent submitted two separate comments on relevance and currency. One comment stated that the FAR does not provide any guidance with respect to relevance when determining the relevance and currency of any termination for cause or default information in PPIRS. The second comment suggested that the rule explain how the contracting officer will evaluate defective pricing information recorded in PPIRS.

Response: The Councils disagree with revising the rule. Relevancy is specific to the instant contract and based on the circumstances of contract performance. Contracting officers are responsible for making a determination of the relevancy of the information. The Councils will

work with the Federal Acquisition Institute and the Defense Acquisition University to develop guidance and training for contracting officials on the proper use of the reported information.

5. Removal of Detrimental Information

Comment: Two respondents submitted comments concerning removal of detrimental information from PPIRS. One comment suggested that the Government remove unfavorable information from PPIRS should it no longer be valid. For example, when terminations for cause or default are converted to termination for convenience or withdrawn the contracting officer should remove from PPIRS any reference to the termination for default. The respondent recommended changing the language at FAR 8.406–8 and 12.403.

Response: The Councils disagree that a change to the rule is necessary. The language at FAR 8.406–4(e), 12.403(c)(4), 15.407–1, and 49.402–8 states that the contracting officer shall report a subsequent withdrawal or a conversion to a termination for convenience in accordance with FAR 42.1503(f).

Comment: Another respondent suggested the Government should be held to the same high standard of record keeping as no system is infallible. Determination of malice and intent should be made before contract termination occurs. Follow-up systems should be in place to make sure that when an error occurs and is corrected that the Government does hold up its side of the bargain and remove detrimental information.

Response: Comment noted. Throughout the revised coverage, language was added that in the event a termination for cause is subsequently converted to a termination for convenience, or otherwise withdrawn, the contracting officer shall ensure that a notice of the conversion or withdrawal is reported in accordance with FAR 42.1503(f).

6. Timing of Posting of Defective Pricing Information

Five comments were received from two respondents regarding the timing and posting of defective pricing information.

Comment: The respondents believe that it is not clear that the intent of this language is to post this information before or after a defective pricing case has been resolved.

Response: The Councils agree. Language was clarified at FAR 15.407–1 to add the word “final” before determination in the coverage. In

addition, a requirement was added to update PPIRS.

Comment: One respondent expressed concern that posting within 10 days is not likely to happen.

Response: The Councils disagree. There were no objections to the 10-day timeframe made by the agencies during the proposed rule comment period. The 10-day timeframe was changed to 3 working days to be synonymous with the requirements of FAPIIS.

Summary of Major Changes to the Proposed Rule

- New coverage at FAR 8.406–8 was moved to FAR 8.406–4(e).
- Language was clarified at FAR 15.407–1 to add “contracting officer’s final” before “determination” in the coverage. A requirement was added to update PPIRS.
- In FAR 42.1503, the 10-day timeframe was changed to 3 working days to be synonymous with the requirements of FAPIIS. Language was clarified on what a “conversion” is. Language was added to address agency focal points.

This is a significant regulatory action and, therefore, was subject to review under section 6(b) of Executive Order 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

B. Regulatory Flexibility Act

The Department of Defense, the General Services Administration, and the National Aeronautics and Space Administration certify that this final rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the rule does not impose any additional requirements on small entities. The collection and reporting of past performance information is an internal process to the Government. The rule merely puts into effect the internal requirement that contracting officers report defective cost or pricing data and terminations for cause or default into PPIRS.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the changes to the FAR do not impose information collection requirements that require the approval of the Office of Management and Budget under 44 U.S.C. chapter 35, *et seq.*
