*General Description of Report:* This information collection is mandatory. 12 U.S.C. 1828(c) (OCC, FDIC, and OTS), and 12 U.S.C. 321, 1828(c), and 4804 (Board). Except for select sensitive items, this information collection is not given confidential treatment. Small businesses, that is, small institutions, are affected.

*Abstract:* This submission covers a renewal of the Agencies' merger application form, which may include clarified instructions for both affiliated and nonaffiliated institutions. The Agencies need the information to ensure that the proposed transactions are permissible under law and regulation and are consistent with safe and sound banking practices. The Agencies are required, under the Bank Merger Act, to consider financial and managerial resources, future prospects, convenience and needs of the community, community reinvestment, and competition.

Some agencies collect limited supplemental information in certain cases. For example, the OCC and OTS collect information regarding CRA commitments; the Federal Reserve

collects information on debt servicing from certain institutions; and the FDIC requires additional information on the competitive impact of proposed mergers.

*Current Actions:* The Agencies are seeking to renew this collection and propose to clarify the instructions. The General Information and Instructions section of the merger application form would be modified to clarify the first subsection (Preparation and Use), which explains more clearly the range of merger transactions that may require use of the application. The remaining clarifications include a new paragraph in the Preparation and Use subsection noting that applications must be submitted to the appropriate regulatory agency. Also, a new Compliance subsection would inform applicants of compliance expectations and of the potential that some very large transactions may be subject to the Hart-Scott-Rodino Antitrust Improvement Act. These additional paragraphs, which would provide further practical advice that is generally included in the other recently approved interagency forms, are intended to highlight certain elements of the applications process to prevent confusion or delay, and add no additional burden.

The Federal Reserve proposes to extend for three years, with minor revisions, its current supplemental form. The two proposed revisions are intended to facilitate the applications review process and provide further practical guidance to the applicant. The first proposed revision recognizes the possible need of biographical or financial information from any individual that, as a consequence of the proposed transaction, becomes a new principal, shareholder, director, or senior executive officer of a state member bank. While all of the Agencies agree that a significant change in management or ownership must be evaluated under the statutory factors of the Bank Merger Act, they have elected to deal with this information need on a case-by-case basis. The second proposed revision would eliminate the need for any formal certification from a target institution. This certification is unique to the bank merger application, and is not specifically required by the Bank Merger Act. As the FRB generally waives this requirement if objected to by the target institution and as the applicant is the party to which bank merger authority is granted, the FRB believes that only the applicant need provide the requested certification. The other agencies believe that the target institution should certify to the accuracy of the information and that the

institutions will notify the agency if any material changes occur prior to a decision. Also, the target institution certifies that any communications with the agency do not constitute a contract.

*Comments:* Comments submitted in response to this notice will be summarized in each Agency's request for OMB approval, and analyzed to determine the extent to which the instructions for the collection should be modified. All comments will become a matter of public record.

Written comments are invited on:

a. Whether the information collection is necessary for the proper performance of the Agencies' functions, and how the instructions can be clarified so that information gathered has more practical utility;

b. The accuracy of the Agencies' estimates of the burden of the information collection, including the validity of the methodology and assumptions used;

c. Ways to enhance the quality, utility, and clarity of the information to be collected;

d. Ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology; and

e. Estimates of capital or start up costs and costs of operation, maintenance, and purchase of services to provide information.
