Title: Clean Air Act Tribal Authority.

Abstract: This ICR requests clearance of EPA's review and approval process for determining Tribe eligibility to carry out the Clean Air Act (CAA). Tribes may choose to submit a CAA eligibility determination and a CAA program application to EPA at the same time for approval and EPA will review both submittals simultaneously. EPA will use this information to determine if a Tribe meets the statutory criteria under section 301(d) of the CAA and is qualified for purposes of implementing an Air Quality Program. Section 114 of the CAA is the authority for the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: The estimated number of respondent Tribes applying for CAA programs over the next three years is 27. The annual average is 9, 27 respondents divided by 3 years. EPA estimates 40 hours per respondent for an annual burden is 387 hours. The average respondent per hour labor cost is \$73.44. A factor of 110% was added to each labor cost category per Office of Management and Budget policy. The figure is based on the U.S. Bureau of Labor Statistics' Table 4, "State and local government, by occupational and industry group," for state and local

government workers. The annual per respondent cost is \$2937.60. The annual total cost is estimated to be, \$26,438.40 per year for a total of \$79,315.20 over the three year collection period. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: July 7, 2004.

Acting Assistant Administrator, Office of Air and Radiation.
