Priority

This competition focuses on projects designed to meet the priority in the notice of final priority for this program, published in the **Federal Register** on October 16, 1998 (63 FR 55764).

For FY 2004 this priority is an absolute priority. Under 34 CFR 75.105 (c)(3) we consider only applications that meet the priority:

Projects must—

- (1) Provide training leading to academic degrees or academic certificates to current vocational rehabilitation counselors, including counselors with disabilities, ethnic minorities, and those from diverse backgrounds, toward meeting designated State unit (DSU) personnel standards required under section 101(a)(7) of the Rehabilitation Act of 1973, as amended, commonly referred to as the Comprehensive System of Personnel Development (CSPD);
- (2) Address the academic degree and academic certificate needs specified in the CSPD plans of those States with which the project will be working; and
- (3) Develop innovative approaches (e.g., distance learning, competency-based programs, and other methods) that would maximize participation in, and the effectiveness of, project training.

Multi-State projects and projects that involve consortia of institutions and agencies are also authorized, although other projects will be considered.

The regulations in 34 CFR 386.31(b) require that a minimum of 75 percent of project funds be used to support student scholarships and stipends. The regulations also provide that the Secretary may waive this requirement under certain circumstances, including new training programs.

Finally, the Secretary intends to approve a wide range of approaches for providing training and different levels of funding, based on the quality of individual projects. The Secretary takes these factors into account in making grants under this priority.

Performance Measures: The Government Performance and Results Act (GPRA) of 1993 directs Federal departments and agencies to improve the effectiveness of their programs by engaging in strategic planning, setting outcome-related goals for programs, and measuring program results against those goals. Program officials must develop performance measures for all of their grant programs to assess their performance and effectiveness. The Rehabilitation Services Administration (RSA) has established a set of indicators to assess the effectiveness of the Rehabilitation Training program and
