Champion Laboratories, Inc., Albion, IL; Champion Laboratories, Inc., West Salem, IL; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor issued a Certification Regarding Eligibility to Apply for Worker Adjustment Assistance on September 15, 2005, applicable to workers of Champion Laboratories, Inc., Albion, Illinois. The notice was published in the **Federal Register** on October 31, 2005 (70 FR 62347). The certification was amended on November 8, 2005 to include an employee of the Albion, Illinois facility of the subject firm located in Bristol, Connecticut (TA-W-57,881A). The notice will be published soon in the **Federal Register**.

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. The workers are engaged in the production of filters.

New information shows that the company sends workers back and forth between the Albion, Illinois facilities and the West Salem, Illinois facility; therefore, workers are not separately identifiable by location. Worker separations have occurred at the Albion, Illinois and West Salem, Illinois facilities of Champion Laboratories.

Accordingly, the Department is amending the certification to cover workers of Champion Laboratories, Inc., West Salem, Illinois.

The intent of the Department's certification is to include all workers of Champion Laboratories, Inc. who were adversely affected by increased company imports.

The amended notice applicable to TA-W-57,881 is hereby issued as follows:

“All workers of Champion Laboratories, Inc., Albion, Illinois (TA-W-57,881), including an employee of Champion Laboratories, Albion, Illinois, located in Bristol, Connecticut (TA-W-57,881A), Champion Laboratories, Inc., West Salem, Illinois (TA-W-57,881B), who became totally or partially separated from employment on or after August 27, 2004, through September 15, 2007, are eligible to apply for adjustment assistance under section 223 of the Trade Act of 1974.”

Signed at Washington, DC this 18th day of November 2005.

Elliott S. Kushner,

Certifying Officer, Division of Trade Adjustment Assistance.

Diefendorf Gear, LLC, Syracuse, NY; Certification Regarding Eligibility to Apply for Alternative Trade Adjustment Assistance

The Department adopted a new interpretation regarding the Alternative Trade Adjustment Assistance (ATAA) program in order to provide equitable access to ATAA for worker groups whose petitions were still in process at the time of implementation of the ATAA program on August 6, 2003. Under this new interpretation, worker groups covered by the certification of a petition that was in process on August 6, 2003 may request ATAA consideration for the certified worker group. In addition, certified worker groups who filed petitions after that date may also request ATAA if the petition did not include an option to apply for ATAA. The request must be made to the Department and may be made by anyone who was entitled to file the original petition under section 221(a)(1) of the Act.

By letter dated November 8, 2005, a state agency representative requested ATAA consideration for workers at the subject firm located in Syracuse, New York.

In order for the Department to issue a certification of eligibility to apply for ATAA, the group eligibility requirements of section 246(a)(3)(A) of the Trade Act must be met. The Department has determined in this case that the requirements have been met.

The investigation revealed that the subject worker group possesses skills that are not easily transferable in the local area, and that at least five percent

of the workforce at the subject firm is at least fifty years of age. Industry data show that competitive conditions within the motor vehicle power train components industry are adverse.

Conclusion

After careful review of the facts obtained on investigation, I conclude that the requirements of section 246(a)(3)(A) of the Trade Act of 1974, as amended, have been met for workers at the subject firm.

In accordance with the provisions of the Act, I make the following certification:

“All workers of Diefendorf Gear, LLC, Syracuse, New York, who became totally or partially separated from employment on or after February 11, 2003 through March 2, 2006, are eligible to apply for alternative trade adjustment assistance under section 246 of the Trade Act of 1974, as amended.”

Signed in Washington, DC, this 23rd day of November 2005.

Linda G. Poole,

Certifying Officer, Division of Trade Adjustment Assistance.

J.E. Morgan Knitting Mills (Sara Lee), Tamaqua, PA; Notice of Revised Determination on Reconsideration

By application of September 30, 2005, a company official requested administrative reconsideration regarding the Department's Negative Determination Regarding Eligibility to Apply for Worker Adjustment Assistance, applicable to the workers of the subject firm.

The initial investigation resulted in a negative determination issued on August 31, 2005, based on the finding that imports of long sleeve mock turtleneck shirts did not contribute importantly to worker separations at the subject plant and that there was no shift to a foreign country. The denial notice was published in the **Federal Register** on October 6, 2005 (70 FR 58477).

The workers at the subject facility were previously certified eligible for trade adjustment assistance (TAA) under TA-W-51,522. That TAA certification expired on May 5, 2005.

To support the request for reconsideration, the company official supplied additional information to supplement that which was gathered
