

Annex, 170 N.W. Vancouver Avenue, Stevenson, Washington. The meeting will begin at 10 a.m. and continue until 5 p.m. The purpose of the meeting is to:

- (1) Consider staffing needs,
 - (2) Discuss the project approval process, and
 - (3) Provide for a Public Open Forum.
- All South Gifford Pinchot National Forest Resource Advisory Committee meetings are open to the public. Interested citizens are encouraged to attend. The "open forum" provides opportunity for the public to bring issues, concerns, and discussion topics to the Advisory Committee. The "open forum" is scheduled as part of agenda item (3) for this meeting. Interested speakers will need to register prior to the open forum period. The committee welcomes the public's written comments on committee business at any time.

FOR FURTHER INFORMATION CONTACT: Direct questions regarding this meeting to Tom Knappenberger, Public Affairs Officer, at (360) 891-5005, or write Forest Headquarters Office, Gifford Pinchot National Forest, 10600 NE. 51st Circle, Vancouver, WA 98682.

Dated: January 25, 2002.

Claire Lavendel,

Forest Supervisor.

BILLING CODE 3410-11-M

DEPARTMENT OF AGRICULTURE

Natural Resources Conservation Service

Sixmile-St. Charles Watershed, Pueblo County, Colorado

AGENCY: Natural Resources Conservation Service, USDA.

ACTION: Notice of a Finding of No Significant Impact.

SUMMARY: Pursuant to Section 102(2) (C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Regulations (40 CFR part 1500); and the Natural Resources Conservation Service Regulations (7 CFR part 650); the Natural Resources Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Sixmile-St. Charles Watershed Project, Pueblo County, Colorado.

FOR FURTHER INFORMATION CONTACT: Allen Green, State Conservationist, Natural Resources Conservation Service, 655 Parfet St., Lakewood, Colorado, 80215-5517, telephone (970) 544-2810.

SUPPLEMENTARY INFORMATION: The environmental assessment of this Federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Allen Green, State Conservationist, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project purpose is to reduce nitrates, selenium, sediment and other pollutant loading to the Arkansas River due to ineffective irrigation water utilization. The planned works of improvement include on-farm underground irrigation pipelines, on-farm concrete irrigation ditches, and structures for water control. These enduring practices are accompanied by facilitating management practices such as Irrigation Water Management and Nutrient Management.

The Notice of a Finding of No Significant Impact (FNSI) has been forwarded to the Environmental Protection Agency and to various Federal, State and local agencies and interested parties. A limited number of copies of the FNSI are available to fill single copy requests at the above address. Basic data developed during the environmental assessment are on file and may be reviewed by contacting Allen Green.

No administration action on implementation of the proposal will be
