**AGENCY:** Federal Aviation  
Administration (FAA), DOT.

**SUPPLEMENTARY INFORMATION:****Authority for This Rulemaking****History**

The FAA published a final rule in the **Federal Register** (88 FR 18392, March 29, 2023) for Doc. No. FAA–2022–1614, amending Class D airspace, Class E surface airspace, and Class E airspace extending upward from 700 feet above the surface at Middle Georgia Regional Airport, Macon, GA. The legal description for Class E surface airspace inadvertently referenced Class D airspace. This action corrects this error.

Class D and Class E airspace designations are published in Paragraphs 5000, 6002, and 6005 of FAA Order JO 7400.11G dated August 19, 2022, and effective September 15, 2022, which is incorporated by reference in 14 CFR 71.1. The Class D and E airspace designations listed in this document will subsequently be published in FAA Order JO 7400.11G.

**Correction to Final Rule**

This action amends (14 CFR) part 71 by replacing the reference to the Class

D airspace in the Class E surface airspace description at Middle Georgia Regional Airport with reference to Class E airspace.

**Regulatory Notices and Analyses**

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

**Environmental Review**

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures,” paragraph 5–6.5a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances warrant the preparation of an environmental assessment.
