ICR Title: Experimental Use Permits (EUPs) for Pesticides.

ICR numbers: EPA ICR No. 0276.15, OMB Control No. 2070-0040.

ICR status: The current OMB approval for this ICR is scheduled to expire on June 30, 2014. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) requires that before a pesticide product may be distributed or sold in the United States, it must be registered by EPA. Section 5 of FIFRA authorizes EPA to issue experimental use permits (EUPs) which allow companies to temporarily ship pesticide products for experimental use for the purpose of gathering data necessary to support the application for registration of a pesticide product. In general, EUPs are issued either for a pesticide not registered with the Agency or for a new use of a registered pesticide. The EUP application must be submitted in order to obtain a permit. This information collection provides EPA with the data necessary to determine whether to issue a EUP under section 5 of FIFRA.

Form Numbers: EPA Form 8570-17—Application for an Experimental Use Permit to Ship and Use a Pesticide for Experimental Purposes Only.

Respondents/affected entities: Entities potentially affected by this ICR include individuals or entities engaged in pesticide, fertilizer, and other agricultural chemical manufacturing. The NAICS codes for respondents under

this ICR include: 325320 (Pesticide and other Agricultural Chemical Manufacturing).

Respondent's obligation to respond: Mandatory (40 CFR 172).

Estimated number of respondents: 30 (total).

Estimated number of responses per respondent: 1.

Frequency of response: On occasion.

Total estimated annual burden: 556 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated annual cost: \$33,872 (per year). There are no capital or operation & maintenance costs associated with this information collection.

Changes in the Estimates: There is a decrease of 1,351 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease reflects EPA's updating of burden estimates for this collection based upon historical information indicating a reduced number of EUP submissions for chemical pesticides, as well as a decrease in the number of EUP applications that are plant-incorporated protectants. This change is an adjustment.

Acting Director, Collection Strategies Division.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NESHAP for Vinyl Chloride (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), NESHAP for Vinyl Chloride (40 CFR part 61, Subpart F) (Renewal)" (EPA ICR No. 0186.13, OMB Control No. 2060-0071), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). This is a proposed extension of the ICR, which is currently approved through June 30, 2014. Public comments were previously requested via the **Federal Register** (78 FR 35023) on June 11, 2013

during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before July 25, 2014.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OECA-2013-0328, to (1) EPA online using www.regulations.gov (our preferred method), or by email to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460; and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: The affected entities are subject to the General Provisions of the NESHAP at 40 CFR part 61, subpart A, and any changes or additions to the Provisions specified at 40 CFR part 61, subpart F. Owners or operators of the affected facilities must submit a one-time-only notification report of any physical or operational changes, initial performance tests, and periodic reports and results. Owners or operators are

also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports are required quarterly at a minimum.

Form Numbers: None.

Respondents/affected entities:

Owners or operators of vinyl chloride production facilities.

Respondent's obligation to respond:

Mandatory (40 CFR part 61, subpart F).

Estimated number of respondents: 18 (total).

Frequency of response: Initially, quarterly, and occasionally.

Total estimated burden: 7,603 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$1,553,615 (per year), includes \$810,000 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a decrease of 4,223 hours in the total estimated respondent burden compared with the ICR currently approved by OMB as a result of the PVC NESHAP standard at 40 CFR part 63, subpart HHHHHH. Beginning in April 17, 2015, 12 of the existing vinyl chloride plants will comply with the part 63 rule, and will no longer be subject to the part 61 NESHAP. Therefore, we expect a decrease in the number of respondents beginning in Year 2 of this ICR period. In addition, we have updated the number of existing sources from 28 in the previous ICR to 26 based on latest Agency estimates for this industry.

Acting Director, Collection Strategies Division.

Abstract: Owners and operators must notify EPA of construction modification startups, shutdowns, malfunctions, and data and results of performance test. Owners/operators must continually monitor and record temperature in specified pollution control devices. EPA determines parameters to be recorded in other control devices upon description of that device by the source.

Form Numbers: None.

Respondents/affected entities:

Asphalt processing and roofing manufacturer facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart UU).

Estimated number of respondents: 144 (total).

Frequency of response: Initially, occasionally and semiannually.

Total estimated burden: 33,912 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$8,557,168 (per year), which includes \$5,240,000 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is no change in the labor hours in this ICR compared to the previous ICR. This is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for the respondents is very low, negative, or non-existent. Therefore, the burden hours in the previous ICR reflect the current burden and are reiterated in this ICR. However, there is an adjustment decrease in the respondent cost and an adjustment increase in the Agency cost due to an update in labor rates.

Acting Director, Collection Strategies Division.
