DEPARTMENT OF DEFENSE

48 CFR Part 252

[DFARS Case 99-D025]

Defense Federal Acquisition Regulation Supplement; Contract Drawings, Maps, and Specifications

AGENCY: Department of Defense (DoD).

ACTION: Final rule.

SUMMARY: The Director of Defense Procurement has issued a final rule amending the Defense Federal Acquisition Regulation Supplement (DFARS) to revise a clause used in construction contracts. The revised clause explicitly allows the Government to furnish drawings and specifications to construction contractors in electronic form and requires construction contractors to reproduce and print contract drawings and specifications as needed.

EFFECTIVE DATE: August 17, 2000.

FOR FURTHER INFORMATION CONTACT: Ms. Amy Williams, Defense Acquisition Regulations Council, OUSD(AT&L)DP(DAR), IMD 3D139, 3062 Defense Pentagon, Washington, DC 20301-3062. Telephone (703) 602-0288; telefax (703) 602-0350. Please cite DFARS Case 99-D025.

SUPPLEMENTARY INFORMATION:

A. Background

DoD uses the clause at DFARS 252.236-7001, Contract Drawings, Maps, and Specifications, in fixed-price construction contracts. The clause previously stated that the Government will provide five sets (unless another quantity is specified) of large-scale drawings and specifications to the contractor without charge; or, at the Government's option, may furnish the contractor with one set of reproducibles, or half-size drawings. This rule revises the clause to specify that the Government will provide one set of drawings and specifications to the contractor in electronic or paper media, as chosen by the contracting officer, and that the contractor will reproduce and print contract drawings and specifications as needed. In addition, the rule removes the term "maps" from

the clause title, since the text of the clause does not contain this term.

DoD published a proposed rule at 65 FR 6574 on February 10, 2000. Three sources submitted comments on the proposed rule. DoD considered all comments in the development of the final rule.

This rule was not subject to Office of Management and Budget review under Executive Order 12866, dated September 30, 1993.

B. Regulatory Flexibility Act

DoD certifies that this final rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because reproducing and printing contract drawings and specifications normally does not constitute a significant expense, and the contractor can pass this expense along to the Government as part of the contract price.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the rule does not impose any information collection requirements that require the approval of the Office of Management and Budget under 44 U.S.C. 3501, *et seq.*

(1) Check all drawings furnished immediately upon receipt;

(2) Compare all drawings and verify the figures before laying out the work;

(2) The Contractor shall follow figures marked on drawings in preference to scale measurements.

(d) Omissions from the drawings or specifications or the misdescription of details of work that are manifestly necessary to carry out the intent of the drawings and specifications, or that are customarily performed, shall not relieve the Contractor from performing such omitted or misdescribed details of the work. The Contractor shall perform such details as if fully and correctly set forth and described in the drawings and specifications.

(e) The work shall conform to the specifications and the contract drawings identified on the following index of drawings:

SUPPLEMENTARY INFORMATION:

A. Background

NASA is in the process of converting to a new Agency-wide accounting software system. To assist with data conversion to the new system, NASA has selected the DoD CCR system for its data conversion baseline. When a vendor registers in CCR, they are assigned a Commercial and Government Entity Code (CAGE) Code, which is the tool NASA has chosen for data conversion to its new accounting
