Purpose and Need for the Proposed Action

In Executive Order 14008, President Biden emphasized the need for the United States to “deploy the full capacity of its agencies to combat the climate crisis” in an approach that focuses attention on “innovation, commercialization, and deployment of clean energy technologies and infrastructure.” The Department of the Interior (DOI) has prioritized “identifying steps to accelerate responsible development of renewable energy on public lands and waters.”

Magic Valley Energy's, LLC (MVE) goal for Lava Ridge is to construct and operate a commercial-scale wind energy facility that reliably and economically produces wind energy for delivery to power markets in the western United States. This goal arises from regulatory, utility, and consumer-driven objectives to incorporate new renewable and carbon-free energy sources into energy supply portfolios. Substantial increases in new renewable energy are required to meet this need. Most western states have specific renewable energy goals. Based on the goals and objectives of the proponent and the BLM's authority, the BLM will evaluate the ROW grant application submitted by MVE in compliance with FLPMA, BLM regulations, and other applicable Federal laws and policies. The need for the BLM's action arises from FLPMA, which establishes a multiple use mandate for management of Federal lands, including “systems for generation, transmission, and distribution of electric energy” (FLPMA Title V). The BLM's action in considering MVE's ROW application is a delegated authority of the Secretary of the Interior to “grant issue or renew rights of way . . . for generation,
