Approval and Promulgation of Implementation Plans; State of Missouri, Controlling Emissions During Episodes of High Air Pollution Potential

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking direct final action to approve a revision submitted by the State of Missouri and received by EPA on December 17, 2013, pertaining to Missouri's rule "Controlling Emissions During Episodes of High Air Pollution Potential." This rule specifies conditions that establish air pollution alerts and emergency alert levels, and associated procedures and emission reduction objectives statewide. This action revises the SIP by amending an existing table in the rule, clarifying requirements of the rule related to emission reduction plans and other rule provisions, and makes administrative and format changes all consistent with Federal regulations.

DATES: Comments on this proposed action must be received in writing by December 4, 2014.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R07-OAR-2014-0602, by mail to Amy Bhesania, Environmental Protection Agency, Air Planning and Development Branch, 11201 Renner Boulevard, Lenexa, Kansas 66219. Comments may also be submitted electronically or through hand delivery/courier by following the detailed instructions in the **ADDRESSES** section of the direct final rule located in the rules section of this **Federal Register**.

SUPPLEMENTARY INFORMATION: In the final rules section of the **Federal Register**, EPA is approving the state's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no relevant adverse comments to this action. A detailed rationale for the

approval is set forth in the direct final rule. If no relevant adverse comments are received in response to this action, no further activity is contemplated in relation to this action. If EPA receives relevant adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed action. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on part of this rule and if that part can be severed from the remainder of the rule, EPA may adopt as final those parts of the rule that are not the subject of an adverse comment. For additional information, see the direct final rule which is located in the rules section of this **Federal Register**.
