Written comments and suggestions from the public and affected agencies should address one or more of the following four points: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) suggestions to enhance the quality, utility, and clarity of the information to be collected; and (4) suggestions to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. The comments that are submitted will be summarized and included in the request for approval. All comments will become a matter of public record.

Overview of This Information Collection

Title: Stakeholder Scheduling Application.

OMB Number: 1651-NEW.

Current Actions: New.

Type of Review: New.

Affected Public: Individuals and Businesses.

Abstract: The Stakeholder Scheduling capability is a mobile application within the "CBP One™" app that will standardize and automate the manual process of brokers and travelers making and updating appointments with CBP for various services. Currently, Customs and Border Protection Officers (CBPOs) and CBP Agriculture Specialists (CBPAS) spend significant time exchanging phone calls, faxes, and emails from stakeholders to schedule inspection services. This includes inspections of perishable cargo, non-perishable cargo that have been identified as mandatory exams, and commercial vessel and commercial or private air arrivals. Based on security vetting, CBP notifies stakeholders that certain cargo require a scan by CBP Non-Intrusive Inspection technology

prior to release. Stakeholders then schedule with CBP a time and location for the scans to be conducted. Pilots and other stakeholders contact CBP to schedule a time and location for the inspections of commercial and private carriers (including occupants) or commercial vessels upon arrival from foreign countries. Additionally, travelers hand carrying sensitive agriculture via air carrier notify CBP that an inspection will be required upon their arrival.

The following CBP legal authorities permit the collection of this information: Intelligence Reform and Terrorism Prevention Act of 2004 (IRTPA), Public Law 108-458, 118 Stat. 3638; Immigration and Nationality Act, as codified at 8 U.S.C. 1185 and 1354; Aviation and Transportation Security Act of 2001 (ATSA); Enhanced Border Security and Visa Reform Act of 2002; and Tariff Act of 1930, as amended, 19 U.S.C. 66, 1433, 1459, 1485, 1624, and 2071.
