

21 sections of fence along the international border with Mexico in the vicinity of Roma, Rio Grande City, McAllen, Progreso, Mercedes, Harlingen, and Brownsville, Texas. Individual fence sections would range from approximately 1 mile to more than 13 miles in length. For much of its length, the proposed tactical infrastructure would follow the existing U.S. Section International Boundary and Water Commission levee. The tactical infrastructure would cross multiple land use types, such as agricultural, rural, suburban, and urban. Impacted parcels are both publicly and privately owned. The Proposed Action would also encroach upon portions of the Lower Rio Grande Valley National Wildlife Refuge and Texas state parks in the Rio Grande Valley.

Two alternatives for the route for the tactical infrastructure are being considered under the Proposed Action—Route A and Route B. Route A is the route initially identified by USBP Rio Grande Valley Sector as meeting its operational requirements. Route B was developed through coordination with Federal and state agencies and incorporates input received through the public scoping period. The Route B alignment continues to meet current operational requirements with less environmental impact.

In addition to Routes A and B described above, an alternative of two layers of fence, known as primary and secondary fence, is analyzed in the EIS. Under this alternative, two layers of fence would be constructed approximately 130 feet apart along the same alignment as Route B and would be most closely aligned with the fence description in the Secure Fence Act of 2006, Public Law 109–367, 120 Stat. 2638, 8 U.S.C. 1701 note, 8 U.S.C. 1103 note. This alternative would also include construction and maintenance of access and patrol roads for USBP agents. The patrol road would be between the primary and secondary fences.

Under the No Action Alternative, proposed tactical infrastructure would not be built and there would be no change in fencing, access roads, or other facilities along the U.S./Mexico international border in the proposed project locations.
